

MAGILL SMITES DRY LEAGUE AS TOOL OF SMITH

Denounces Corruption as
He Opens Campaign.

BY ARTHUR EVANS.
Springfield, Ill., Oct. 11.—[Special.]—In opening his campaign "to awaken civic conscience," Hugh S. Magill, independent Republican candidate for senator, took as his target tonight the leader of the Anti-Saloon league.

In Sangamon's historic old courthouse, Magill, standing on the spot where Lincoln often spoke, declared that the nation is dumfounded at the "apparent paralysis of the public conscience" in Illinois as manifest in the small regime, which he termed the "most corrupt state administration the commonwealth has ever seen," and in the revelation of public utility contributions to the campaign fund of Frank L. Smith, Republican nominee for senator, while he was still chairman of the utility rate making body.

Attacks Dry League.
But most outlandish of all phases of "political degeneracy in Illinois," he said, is the spectacle of the "corrupt political forces" getting to the auto-

crats of the Anti-Saloon league in an effort to control the dry church vote. "Even worse than the looting of the treasury and the disregard of the public utility laws," he said, "is the attempt of these political forces to use the conscience and control the votes of the moral and religious forces of Illinois by controlling the leaders of the Anti-Saloon league, and through these leaders demanding that the decent people of Illinois shall support the candidacy of Mr. Smith for senator in the dry issue alone."

Magill pointed out that he is personally and politically an uncompromising dry, but he said representative government is menaced by the tactics of the Anti-Saloon league leaders.

Says League Is Corrupted.
"There is no security for free government," he said, "if the moral and religious people of this state blindly follow a false and compromising leadership that has been reached and prostituted by these powerful corrupting influences."

"The regrettable facts compel us to acknowledge that the present state administration is the most corrupt that the state has ever known."

"The people of the nation behold in Illinois a governor who has failed to account for more than a million dollars of state funds collected by him as state treasurer."

Cites Slush Fund.
"Since the Supreme court has denied that Small must give an accounting for this money, the office holders under the state administration have been called upon to make good the governor's default."

"And, now the people of the nation behold another scandalous condition revealed by the United States senate investigating committee. This committee found that Frank L. Smith, while chairman of the Illinois Commerce commission, accepted more than \$150,000 in campaign contributions

REUNITED TO HIS FAMILY

Lewis E. Larson, former school board official, with his wife, son and daughter, who joined him at Dallas, Tex., after he had been missing three years. (Pacific and Atlantic Photo.)

LEWIS LARSON'S SON HOME AFTER FINDING FATHER

Leonard Larson, who recently found his father, Lewis Larson, in Texas after an absence of three and a half years, returned to Chicago last night with his sister, Lucille, leaving his mother in a small town 200 miles west of Dallas, where she will remain with Mr. Larson for the next six weeks. Nothing definite has been settled as to the future of the family, Leonard told Harper Osborne, his uncle, a leader in the three years' search for his brother-in-law, who for years was secretary of the Chicago board of education. Leonard said, however, that his father and mother expected to return to Chicago after settling his business affairs in Texas.

As might be expected, Gov. Small and his political machine are appealing to the people to elect Mr. Smith. But the governor's motives appear to be quite different from those of Mr. Smith.

The concern of the state administration as reflected in the published speech of Lieut. Gov. Sterling, is to have the power to appoint a senator to fill the vacancy in case Smith were elected but refused a seat in the senate. Will the people vote to put this added power in the hands of the present state administration?

"The people of Illinois cannot remedy these political conditions by electing Mr. Brennan United States senator. The principal plank in his platform is the nullification of the constitution and laws of the United States."

J. HAM LEWIS LOOSES ORATORY FOR DEMOCRATS

Assails Prohibition as
Fostering Corruption.

BY FRANK BUTZOW.
James Hamilton Lewis donned his fighting togs last night and got into the campaign to help the Democratic state and county ticket. The former Democratic whip of the United States senate during the Wilson administration tied no strings to his enlistment, which was interpreted to mean that the leaders of the Dunne-Harrison-O'Connell Democrats will go the route for the Brennan, regulars in the election despite their old time animosities.

Former Senator Lewis let loose his oratorical guns for the whole ticket at the formal opening of the Iroquois club in the Earl Thabarin of the Hotel Sherman. He lambasted the Republicans from all quarters, and what he had to say about prohibition was enough to make George Brennan or Al Smith envious.

An Issue of Sovereignty.
"The issue," he said, "is one of home preservation under state law or home destruction and official corruption under national law. The issue is the sovereignty of citizenship."

In the face of the record of prohibition it is better that a few honest citizens be drunk on beer than an army of corrupt officials be drunk on power. It is better that all God made liberty die than that all God made liberty die."

"Col. Frank Smith, the Republican candidate for senator, says that there is no remedy for the wrongs of prohibition unless you destroy the whole 18th amendment; that the assaults on liberty and attacks on citizens must continue."

"Col. Smith admits all the outrages we denounce and asks us if we would nullify the 14th and 15th amendments in his bid for the black vote. If under the 14th and 15th amendments there shall be a law permitting such outrages as are endured under the 18th I say yes."

Register Again Today.
County Commissioner George A. Miller, defeated in the primaries, headed a group of Democreats who joined forces yesterday with the Crowe-Barrett-Galpin camp to support the G. O. P. county ticket.

Chairman Galpin called the Republican county committee together yesterday to put on a big registration drive today, the last day for registering for the Nov. 2 election. Those who are not on the new lists, that is those who did not register Oct. 2 or who fail to do so today, will be unable to vote in the election as the old poll lists have been destroyed.

BAPTIST MINISTERS DIFFER ON MERITS OF SENATE CANDIDATES

Baptist ministers divided yesterday on the question of the Illinois senatorial candidates. All declared themselves as opposed to George E. Brennan, champion of the anti-Volstead political forces, but were divided in their choice of the Republican candidates, Frank L. Smith and Hugh S. Magill.

Two weeks ago the Baptist Ministers' association passed resolutions advising its constituency to follow the endorsements of the Anti-Saloon league without naming any candidates.

On motion of Dr. Benjamin Otto, superintendent of the Baptist executive council, the former action was reconsidered yesterday and the question referred back to the civic actions committee. Dr. Otto made a speech endorsing Mr. Magill as expressing more fully the ideals for which Baptists stood.

New officers of the association were elected: President, the Rev. E. A. Shull; vice president, the Rev. W. E. Loucks; treasurer, the Rev. W. H. Peoples; secretary, the Rev. H. R. Griffin.

INDIAN SUMMER
ROMANCE BARED
IN LOVE TRIAL

The middle aged romance of Mrs. Margaret Tobin, 42 years old, 5921 North Paulina street, and Patrick J. Maloney, 54 years old, 4807 West 25th street, real estate dealer, was detailed to a jury in Judge Joseph B. David's court yesterday. Mrs. Tobin is suing Maloney for \$25,000 for breach of promise.

Mrs. Tobin displayed an engagement and a wedding ring which she said had been given her by Maloney. Questioned by her attorney, Louis L. Cohen, she said she met Maloney, a widower, in 1914 and went to live with him, believing that he would marry her as soon as his children grew up. But after eight years he repudied her, she said.

The defendant's attorney, John Longergan, questioned Mrs. Tobin's reputation before she met Maloney. "Mr. Maloney was trying to better this woman's condition, not lower it," the lawyer told Judge David.

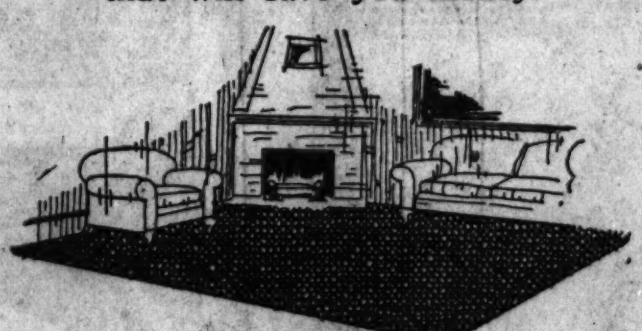

16,000 Women Fill Italy's
Quota to U. S. for 8 Years

ROME, Oct. 11.—(AP)—The Italian commissariat of emigration has published a notice saying that 16,000 Italian women are now entitled to enter the United States. They are the wives of men who have resided in America for at least four years. The notice adds that these women will absorb the quota of emigrants assigned to Italy for at least eight years.

QUEEN MARIE TO COME HERE FREE IN \$5,000 SUITE

Uncle Sam to Pay All Her Expenses.

New York, Oct. 11.—[Special].—When Queen Marie sails from Cherbourg on the Leviathan tomorrow on her trip to the United States she will have all the greatest luxuries of sea travel—and the bill will be paid by good old Uncle Sam.

The queen, it has been announced, will be "the guest of the Leviathan"—which means that she will be the guest of the United States government, which owns, controls, and operates the Leviathan.

Will Have Bridal Suite.

The queen will have what is known as the presidential suite which is usually held at the price of \$5,000 for a one way voyage, but sometimes is said to be released for \$2,500 or \$3,000. In any event the queen will have the best the Leviathan has to offer and she will be treated as a real royal guest. Three members of her family will also be guests of the United States line. They presumably will be in adjoining quarters, and like the queen, will travel free. Their quarters have a nominal trip value of \$4,500.

According to information given out here, there will be thirteen additional members of the queen's party, but they will not enjoy the rank of royal guests. They will pay what is equivalent to "diplomatic voyage fees," or about three-quarters full fares. All told the party will pay about \$5,000 for their accommodation.

As for the queen's return trip home, no arrangements have been made by the United States line, and the presumption is that she will pay her way back.

An advance representative of the queen arrived in New York today on the Belgeland. He is Raoul Alvera, diplomatic courier to the Roumanian legation at Washington.

Compared to Cleopatra.

He was lavish in his praises of the queen. He described her as "the most beautiful queen in history since Cleopatra."

Official Itinerary of Queen Marie's American Visit

Washington, D. C., Oct. 11.—[Special].—The itinerary of Queen Marie and her royal party, exclusive of her trip through the south, was made public tonight, as follows:

Arrive Washington 9:45 p. m. Dec. 2.

NEW LANE TECH IN \$17,000,000 SCHOOL PROGRAM

Assurance that Lane technical high school will move into new quarters early in 1928 was given yesterday by the school board when that project was selected as one of seventeen elementary and high school buildings to be erected from the 1927 building budget. The estimated cost of the program approved yesterday is \$17,000,000, giving seats to 21,000 more students.

The new Lane building will provide for 3,000 students, relieving the 55 room shortage at the present high school. The Austin and the Wendell Phillips are the other two senior high schools which will go up next year, the committee decided.

The school board topped off two of the junior high schools requested by the superintendent, and decided to build only four. Ten new elementary schools will be built.

Three Filtration Plants to Purify Chicago Water

Three new \$15,000,000 filtration plants will be built soon to give Chicago pure filtered water. A. E. Orman, chief engineer of the department of public works, announced yesterday. An experimental plant has been established at the 48th street pumping station for John R. Baylis, chemist.

DAUGHERTY CASE DISMISSED; OUT 66 HOURS

7 to 5 to Convict
Attorney General.

Oct. 12.—[Special.]—The jury in the conspiracy case charged by Federal Judge Julius Mack this afternoon after it reported a disagreement. The vote was 7 to 5 for conviction of Daugherty and 10 to 2 for acquittal of Miller. It was reported that the two holdouts in the Miller

case refused to vote for conviction of Miller unless there was an agreement on conviction of Daugherty. The first ballot was 8 to 4 for conviction of Daugherty and 10 to 2 for conviction of Miller. At no time was the balloting ever worse than 8 to 4 for Daugherty.

Silent on New Trial

The disagreement of the jury brought joy to the defense and gloom to the prosecution. United States Attorney Henry R. Buckner, who prosecuted the case, pointed out that the indictment still stands against Daugherty and Miller, but he refused to commit himself as to a new trial.

Daugherty, at the office of his counsel, Max D. Steuer, had only this to say: "I am disappointed that there was not a verdict of acquittal, which I expected and deserved. However, I have no complaints to make."

Charged with Conspiracy

The former government officials were charged with conspiracy to defraud the government of their honest and best services by authorizing the release of \$7,000,000 in assets of the American Metal company, impounded during the war. Richard Merton, German claimant of the \$7,000,000, was the principal government witness in the trial. He testified he had paid the late John T. King \$441,000 to get his

claim put through. Part of this, the government claimed, found its way into the hands of Daugherty and Miller.

PARENTS SEEKING DIVORCE SHARE IN GIFT HOUSE

The \$25,000 River Forest home given to Mrs. Gertrude Whitmore of Kew Gardens, New York, formerly Gertrude Dolan, dancer, by Prince Vitor Vici of India, an admirer, belongs equally to both her parents, Thomas C. Dolan, head of a printing firm bearing his name, and Mrs. Elizabeth A. Dolan, under the terms of a report filed yesterday by a master in chancery in the Superior court.

Mrs. Dolan's suit for divorce, charging cruelty, was heard by a master because of the length of the papers in the case. He recommended that she be given a decree, dissolving Dolan's charges of drunkenness and infidelity.

The home at 414 Williams street, River Forest, was in Mrs. Dolan's name, the report stated, but it was meant to be owned equally by Mr. and Mrs. Dolan. Dolan should pay his wife \$50 a week alimony and \$2,500 solicitors' fees, the report stated.

GERMANY PAYS \$19,229,251 TO ALLIES IN MONTH

[Chicago Tribune From London]

PARIS, Oct. 11.—The Dawes reparations plan, which the European governments would like to revise, along with the debts and Versailles treaty, if the United States and Germany will agree to a conference, is managing to function normally, according to the agent general's report today for September.

Germany's total payments to the powers this month were 15,917,004 gold marks [about \$19,229,251]. Of this amount the United States received 10,031,690 marks [about \$12,507,922.50] for deliveries under the Dawes agreement, plus 590,000 marks [about \$737,500] in a cash transfer of foreign currency.

France's cash transfer amounted to 286,584 marks [about \$358,230] but the total receipts in kind, payments for the army of occupation costs, and so forth, brought up the total to over 35,000,000 gold marks [about \$43,750,000] in value.

Beautiful Period Models for beautiful homes

Sizes, colors, designs and prices to meet all discriminating tastes and requirements

OUR period model pianos are so rich in finish and wood colorings, so authentic and conservatively beautiful, that any one of them cannot fail to enrich the appearance of the room in which it is placed.

You can choose between Italian Walnut, Circassian Walnut, Blister Walnut, Fancy American Butt Walnut, Burl Walnut, Polished Ebony, Brown Mahogany or the new Chinese Lacquer Crackle Finish in flowered designs. The beauty of these finishes must be seen to be appreciated.

These choices extend to either the Knabe or Fischer Grand Pianos, with or

without the AMPICO re-enacting action, in a wide range of sizes and prices. The piano you are looking for is here.

Leading interior decorators have recommended these beautiful period models for many prominent Chicago homes. Musicians certify to the sonorous beauty of the Knabe and Fischer tone. The Knabe assumed world leadership for tone when it was chosen as the official piano of the Metropolitan Opera Company, New York.

See and hear these pianos before you make any purchase or deal. We promise to make your visit well worth the time you can conveniently devote to it.

SLAIN WOMAN THROWN IN ALLEY NEAR HOSPITAL

Two Men Quizzed on Shooting in Tearoom.

Two men quarreled as they drank hip liquor in a tearoom on West 51st street yesterday morning. One fired at the other, missed, but wounded their woman companion. The men put her in an auto, but threw her out in an alley back of the German Deaconess hospital, where she was found dead, but still warm, at 8:30 yesterday morning.

That is the story the police were piecing together early this morning to account for the killing of Edna Bolt, formerly of Decatur, Ill., whose body was identified late last night by Mrs. Katherine Parsons, with whom she had roomed at 719 West 50th street. Miss Bolt, who was 22, had left the Victory restaurant, 4709 South Halsted street, shortly before 2 yesterday morning. The proprietor said she met two men in an auto.

Saw Woman Shot.

The story of the shooting came from a man whose name the police withheld. He said he had fled after seeing the shooting in the Fleming Bros. tearoom, 841 West 51st street. This man identified the body of the woman he had seen shot. Patrick Fleming and his brother Thomas were held by the police in the hope that they could tell who the men were who had accompanied the young woman to the restaurant.

The slain woman's mother is Mrs. Edna Bolt, 506 East North street, Decatur. She said there last night that her daughter went to Chicago nine weeks ago with Viva Smith, who just had completed a year's jail sentence for selling booze to students.

"Edna wrote regularly every week," Mrs. Bolt said.

Woman Finds the Body.

Miss Bolt left the restaurant yesterday morning at 1:45. She was wearing a white percale waitress one-piece dress over a pink chemise. Tan silk stockings, black slippers, and a black plush coat with a fur collar completed her costume. About seven hours later, at 8:30, Mrs. Margaret Lampier, 8361 South Morgan, taking a cross cut through the alley to buy some rolls for breakfast, found the girl's body huddled against the fence of the house just north of the hospital. The black coat had been flung across the body, the chemise and dress were stained

with blood; a bullet entered just above the heart. The body still was warm when Dr. Floyd Duncan of the hospital staff arrived.

In the pocket of the dress was a crumpled dollar bill and a fifteen-cent check from the Majestic restaurant at 3503 S. Halsted street. On the back of the check was the telephone number of the restaurant, written in pencil.

Says Girl Asked for Job.

Thomas Diamond, proprietor of the Majestic, was summoned by the police. "Yes, I've seen that girl," he said, "but I don't know her name. She came to see me last Thursday and

agreed to come to work as daytime girl the next day. I gave her my telephone number, so she could let me know if she didn't want to come. That night she called and said she wouldn't be down. She was with a tall, thin girl, but I don't know the names of either."

Then the police began to canvass the restaurants in the neighborhood, the restaurants in the neighborhood. Although the body apparently had been dragged 40 or 50 feet from 54th

street, according to the theory of a coroner's physician, and although it was placed in the alley between 52d and 53d, when school children run by to the nearby schools, nobody in the vicinity saw or heard anything strange.

BEAT AND BOB STORE MANAGER.
William Johnson, 6466 Lake Park avenue, manager of a Great Atlantic and Pacific Tea company store at 4817 Indiana avenue, was robbed of \$20 and beaten by a colored bandit in the store yesterday.

You need not pay much to have a Series 80

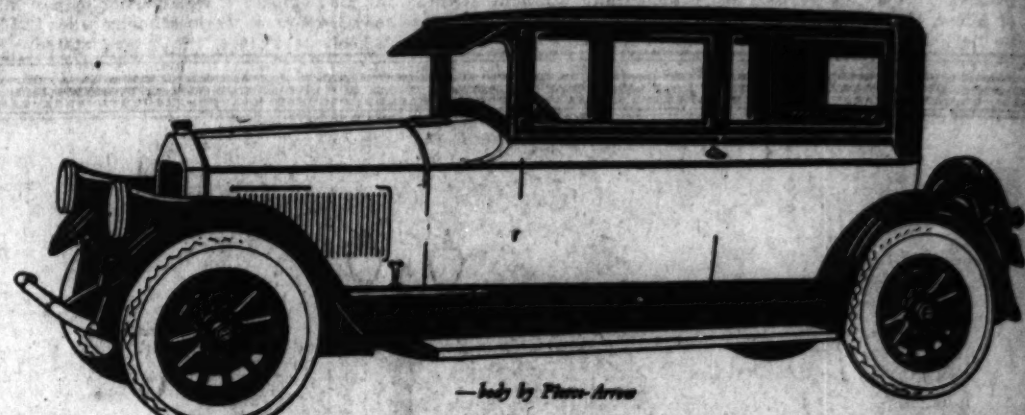

The model illustrated is the five-passenger, two-door custom-built coach and is priced at

\$2995

5-passenger, 4-door . . . \$3250
7-passenger, 4-door . . . 3350
7-pass., 4-door Limousine 3450
—at Buffalo—see dealer for additional
Terms if desired

Today, due to the development of a 130-inch wheel-base chassis—the Series 80—you can afford fashionable Pierce-Arrow transportation if you can afford a \$1500 to \$2000 car.

At our display rooms you will find rich, luxurious, hand-built, Pierce-Arrow enclosed cars at prices ranging from \$2995 to \$3450. These are the new custom-built coaches, with appointments and upholstery of traditional Pierce-Arrow excellence—and your choice of six charming body colors. A demonstration trip should prove interesting. Call on us, we will call for you, as you wish.

—body by Pierce-Arrow

The Pierce-Arrow built six-cylinder, 70-horsepower engine of this Series 80 chassis gets 24 to 27 miles per gallon out of gasoline. 15,000 to 18,000 miles per tire is actual. Mechanical attention, rarely needed, costs little due to national Pierce-Arrow Flat Road Service. Balloon tires, Pierce-Arrow four-wheel safety brakes and Handbuilt shock absorbers are standard equipment.

Better Furnishing of Offices

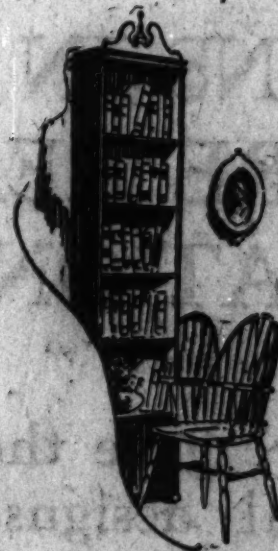

A most noticeable trend has set in toward better furnishing of offices.

This shows itself, not so much in increased expenditure, but in the exercise of greater care and thought and in seeking authoritative advice.

Many business men spend more time in their offices than they do in their homes. Making every allowance for business requirements, there is rarely any reason why such offices should not be made to reflect the owner's good taste by the use of furnishings that are genuinely interesting and thoroughly harmonious.

It has become quite the custom to furnish offices in definite styles or periods. Not long ago we furnished the office of a well known newspaper executive in a charming Old English effect. We also furnished a large railroad office throughout in a manner highly suggestive of that railroad's most palatial train. Many other examples of this new trend might be mentioned.

Business men everywhere are realizing that the better and more harmonious furnishing of their offices, based on expert advice, is not only a gratification of their personal taste, but is an important element of good salesmanship.

For Big Profits and Quick Returns— BUY GREATER CHICAGO ACRES

Acres today—city lots tomorrow

At Rate of **\$350** Per Acre

Terms: \$10 a month

This land is located near stations, on rapid transit; near schools, stores and churches and right in the path of Chicago's greatest future development. You can make big money by purchasing these acres today that can be subdivided into city lots tomorrow. Such land should pay you big profits on every foot you buy and in this way you can profit by the tremendous growth of Chicago.

All titles guaranteed by the Chicago Title and Trust Company

Every acre of this land will divide into eight city lots. You can live on this land now and pay for it with your rent money—or you can cultivate it and make money by raising fruits, poultry and vegetables. Later you should be able to cut up this land into city lots and each lot should then sell for as much as you now pay for a whole acre. In the last few years hundreds of our purchasers have made big money by the increasing values of their land, which was bought with a few dollars down, balance like rent.

A few years ago one of our customers bought five acres of such land for \$1,500 and recently refused \$2,000 for a lot one hundred feet wide off this land.

Another customer, who paid us \$1,500 for five acres of land a few years ago, sold one hundred-foot piece off this land for \$2,000 and still has left over 4% acres.

Acres on the Northwest Side that we sold a few years ago for \$200 each are now selling for as much per lot as the purchasers originally paid for an acre.

We have hundreds of other such instances of profit-taking on our lands sold only a few years ago.

You can make similar profits—and you need only a few dollars to start with

Free Book Tells how to heat your home

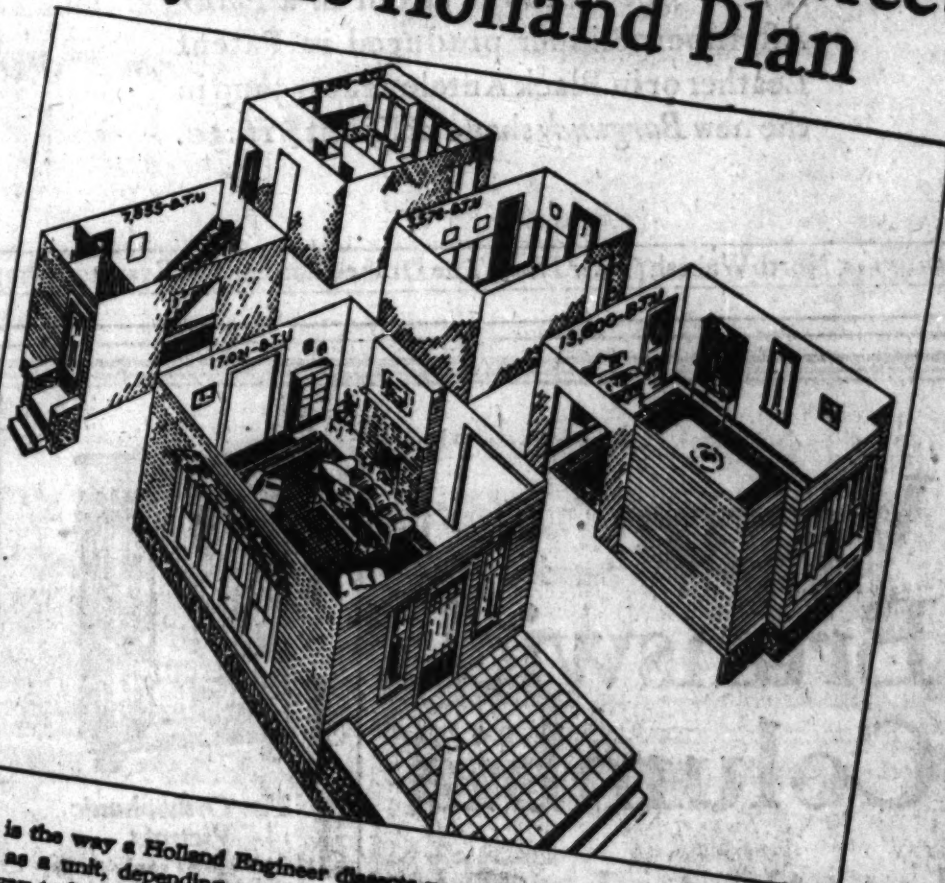

Humidity

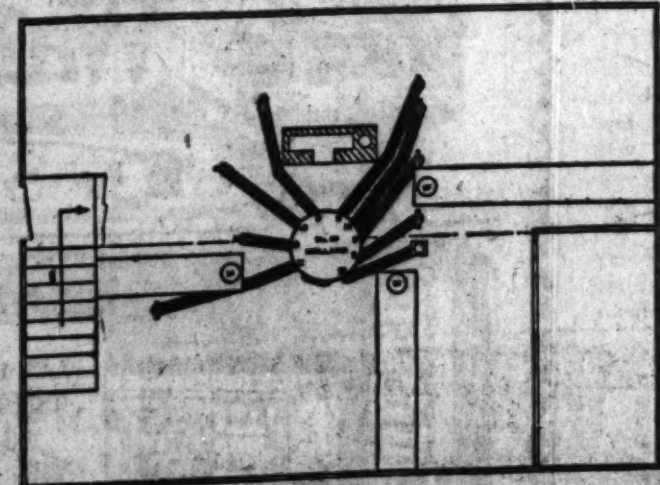

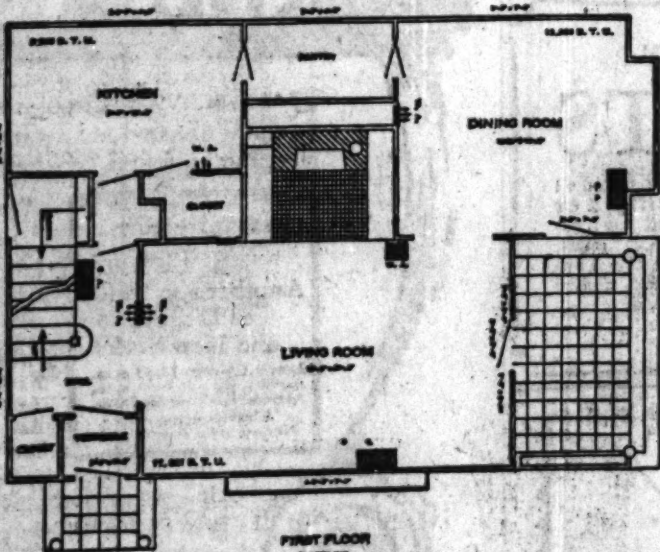

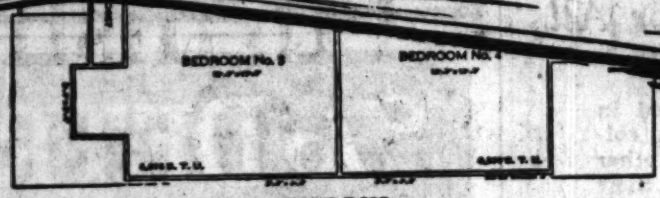

Physicians say humidity means health. You get humidity with a Holland System that you cannot get with Hot Air—Steam or Hot Water Systems.

The arrow indicates the graduated humidifier that steams the coal as it burns and gives full heat value—that moistens the ashes to prevent dust and make furnace tending a clean task—that feeds tempering, cleansing moisture into the warm air supply. This feature alone makes the Holland Heating System your winter health protector.

Each Room Heated Correctly by the Holland Plan

Here is the way a Holland Engineer dissects your house in plan-work, heating each room as a unit, depending on the particular requirement of the room. This is the safe way to be sure of ample heat, health and comfort.

Every Room Should get the correct amount of heat

Each room in your home has its own particular heat requirement. Different rooms have different exposures to weather, different glass areas, varying spaces to be heated. There are all sorts of things to be considered in a sound heating plan. Proper heating never comes from guesswork. There is a definite measure of heat called the B.T.U.—or British Thermal Unit. One room may be overheated with 4,000 such units while another is dangerously cool with 12,000. What would happen if you put 4,000 heat units in a room that required 12,000? It wouldn't be very comfortable nor very healthful, would it? Nor would you enjoy sweltering in a room that received 12,000 heat units where only 4,000 were needed. Yet that very thing is bound to happen when an ordinary dealer puts a furnace in the basement with the same sized pipe to every room. It almost invariably happens when furnaces are guessed into homes without sound engineering plans.

Get Away From Guesswork

You can be sure of correct home heating. There are men—trained heating engineers—who know how to develop a heating plan for you. These men know what sized furnace your home requires—what sized pipes are needed to carry the heat the necessary distance. There are several thousand such men trained by the Holland Furnace Company available to you through the coast-to-coast system of more than five hundred factory branches of the Holland Furnace Company. These are men who will eliminate all guesswork in your home heating plans—men you will enjoy dealing with—men who will explain to you how your home should be heated.

Undivided Responsibility

The Holland Furnace Company assumes undivided responsibility for the proper heating of your home

and issues a binding guarantee that protects every installation made by any of its heating engineers from any branch, whether in Pittsburgh or Boston—Seattle or Cleveland—wherever a Holland Branch is located.

Good Health Too

These Holland men not only know how to make your heating plan but they know how to install the Heating System that carries out the plan—the system that delivers the much needed moisture in circulated warm air. With the Holland System you breathe circulated air and keep your health. Proper circulation of a sufficient volume of moist warm air is definitely accomplished by the Holland Heating System as the new Holland Humidifier automatically tempers and moistens the air as it is circulated and warmed. Your physician will tell you that you need humidity for health.

Get Your Heating Plan Early

Since no Holland Furnace can be installed before a genuine Holland Engineered plan is made—and since trained Holland installers install every Holland Furnace in exact accordance with each individual plan, it is evident that the number of Furnaces we install is limited by the number of trained men available. Better have your plan made now. Buy known values in home heating. Buy guaranteed, bonded satisfaction. Call the nearest Holland Branch and a Holland trained man will call at once to make a plan for you.

Write For the Free Book

The two pages of the book shown above will indicate how this book goes about it to explain home heating in a definite way. It is not difficult to be definite when a definite service is offered. There are many other pages in this book of interest to every home-owner and builder. Get this book and

know about home heating. Simply mail the coupon for your copy. Then no matter what heating system you buy you will know what to get and how to get it. Mail the coupon today and this free book will be sent promptly—or phone the nearest branch for your copy now.

Part Payment Plan

Note—You may buy a Holland Heating System on part payment plan if you wish.

Fix Your Old Furnace

If your old furnace needs repairing, now is the time to put it in shape for the winter. A Holland man will take care of it for you at the fair Holland price if you will phone the nearest Holland Branch.

A heating plan looks simple—after it is done. But who is going to do it right? Is it the side line merchant who buys a furnace—adds a little equipment and hires somebody to put it in? Or is it a trained Heating Engineer, a Holland man—who plans right—installs right—and guarantees rightness with the backing of the Largest Installers of Furnaces in the World? Let a Holland Man Make Your Heating Plan.

BRITISH EMPIRE CRACKING, FEAR OF DOMINIONS

Australia Leads Fight for Remodeling.

BY JOHN STEELE.

[Copyright: 1926: By The Chicago Tribune.]
LONDON, Oct. 11.—S. M. Bruce, Australian prime minister, who arrived today in London for the imperial conference, is expected to take a leading part in the deliberations on the new imperial relationships which must be worked out before long, if the British empire is to be preserved from disintegration.

Mr. Bruce has been selected by the dominions to present their case because Australia is known to be the most loyal of all the dominions to the British connection. Anything he says about the faults of the present arrangement cannot be attributed to separatism, as might have been the case with Canada, South Africa, or Ireland.

Demand Definite Action.

Mr. Bruce comes to London with certain quite definite ideas of what he wants. First, he is of the opinion that this conference will be the last, if something definite is not done. The conference three years ago passed resolutions and accomplished nothing. This year the dominions are determined to get action.

Prime Minister Bruce, of course, is most interested in Australia's own problem of defense of the Pacific coast. Since Great Britain threw over Japan as an ally at the behest of Washington, Japan has been the outstanding menace to Australia. At present Great Britain directs the foreign policy in the Pacific, and supplies the forces to carry it out, with contributions of men and ships by Australia, over which, however, Australia has no control, while it has even less over the former.

tion of a policy which may affect its very existence.

Australia Wants to Fix Policy.

Mr. Bruce's idea is that the relationship should be reversed—that Australia, the most interested party and should frame the Pacific policy, with advice from the mother country, and take the leadership in carrying it out, with suitable contributions from Great Britain and other dominions. Canada is believed to be of the same opinion about relationship for instance with the United States, while South Africa is for wider responsibility by the dominions in framing the foreign policy of the empire.

Gen. Hertzog, the South African

prime minister, in particular has in mind the reversal of the make up of the British empire. At present it is a group of daughter states dependent on and chartered as nations by the mother country.

Would Use U. S. as Pattern.

Gen. Hertzog's idea is that it should become a trans-continental of independent states, granting power to the central government, somewhat in the lines of the American union. Ireland also is known to hold this view.

ENDS SINCE TROUBLE MISERY.

Since the war it—always pain, and distress of mind, and the like. Use it twice daily. Results guaranteed (or money back) by American Drug Corp., St. Louis, Mo. At all Chicago Drug Stores—Adv.

VAMPIRE AUTO VICTIM DIES; TOLL NOW 670

The county motor death toll was raised to 670 yesterday with the death of Ignatz Brankakis, 35 years old, 2408 Blue Island avenue, who died in the county hospital of a fractured skull. He was found unconscious at 23d and Leavitt streets by police who are investigating to discover the driver of the automobile which struck him. Two persons were injured possibly fatally and two others were bruised last night when the speeding automobile in which they had been riding

south in Michigan avenue at Eighty-third street, overturned when it reached the end of the paved roadway and rolled into a ditch. The two seriously injured are: Mrs. Bertha Caberton, 27 years old, 1949 South Park avenue and Roy Caberton, Jr., 8 years old, her son.

Testimony that John Nosko, 28 years old, 2230 McGlashen avenue, failed to halt his automobile after fatally injuring a woman, caused a coroner's jury to hold him to the grand jury on a manslaughter charge.

SEEK LOST WOMAN'S RELATIVES.
For three days the Town Hall police have conducted an unsuccessful search for relatives of a woman who remembers that she is Mrs. Julia Egan, but cannot recall her address or how she happened to be wandering aimlessly about on the streets Friday, when she was taken into custody.

GROW WITH THE TRIBUNE IN 1926

3 { Victor Brunswick Columbia

—Which will it be?

Answer this question at Lyon & Healy's

YOU have heard and read much about the remarkable new instruments that have created a new era in phonograph history. How they reproduce the voice with uncanny fidelity. How famous orchestras and bands seem to be in your very home, so realistic in their music. Victor, Brunswick, Columbia—the three leaders which you know so well—have each made great contributions. Each offers, as a result of their recent researches in the field of acoustics, new musical instruments that give astonishing musical results.

You will want to hear all three, we know. And for the first time in Chicago, you can do so at Lyon & Healy's.

Side by Side Comparison

To purchase intelligently one of these new-type instruments, a side-by-side comparison is necessary. Play a record on the Orthophonic Victrola. Hear the same record on Brunswick's New Musical Instrument (yet unnamed), then on the Viva-tonal Columbia. Or compare the performance of the Victor Electrola and the Brunswick Panatrope (the electrical music reproducing instrument). Here you can do this in one room, conveniently, leisurely. Then when you have made a selection, you will be satisfied that you have the instrument you like best.

Come soon to make this comparison. You will get the musical thrill of your lifetime.

1569 Milwaukee Ave. (Arden 7834)

Everything Known in Music
Founded in the Year 1864

The Orthophonic Victrola

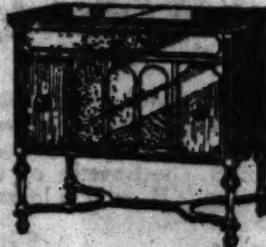

Uses an entirely new, scientific principle called "Masked Impedance." New in construction, in design and in musical result.

From \$85 up

The Victor Electrola
An electrical instrument in which the music is amplified by the use of the vacuum tube, utilizing newly discovered radio processes.

From \$450 up

All Victor instruments are also obtainable in combination with Radiolas in a single, beautiful cabinet.

The Brunswick Panatrope

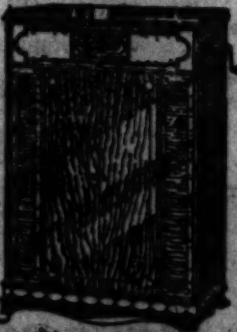

The joint achievement of four great laboratories—RCA, General Electric, Westinghouse and Brunswick. Electrical in principle, working in vacuum.

From \$400 up

Brunswick's New Musical Instrument
Brunswick has also developed another new musical instrument, as yet unnamed. It is non-electrical, the vacuum tube working in place.

From \$115 up

Both the Panatrope and Brunswick's New Musical Instrument may be had alone or in combination with Radiolas.

Viva-tonal Columbia

"Like life itself" describes the Viva-tonal Columbia. Its music will delight and warm you—so real that you expect to hear the words of those songs as the performers sing them.

From \$90 up

BRITISH LABOR BARS REDS FROM VOICE IN PARTY

(Chicago Tribune From Service.)
LONDON, Oct. 11.—Communists and communism were put under the sternest of blows today by the national conference of the Labor party. Last year the party passed a resolution excluding communist affiliated organizations, but more than twenty communists turned up as delegates today for various trade unions.
These delegates immediately moved a resolution that last year's decision be reconsidered. They tried to start a cry of speechmaking and abuse of the conservative labor leaders. The chairman, Robert Williams, heretofore credited to the left wing of the labor movement, refused to allow the speeches. A vote resulted, 2,704,000 against to 248,000 for the communists. Chairman Williams sprung another surprise in his opening speech by denouncing the extremist policy of the labor party. Referring to the plan adopted by the miners' executive committee last week at the insistence of the South Wales extremists, to flood the market with an embargo on foreign coal, and to put through other like measures, Mr. Williams said: "The miners ask for an embargo. It was ineffective in 1921. What hope, therefore, in 1926?"
Mr. Williams denounced the strike policy, saying: "There is a doctrine

not widely held but sedulously advocated that a real change in social and economic conditions can come only by force, blow after blow, strike after strike, far flung industrial upheavals, one rapidly following another, and then the overthrow of capitalism. Right is lost of the fact that the majority of our trade unionists would be severed by one form or another from the conciliatory machinery between the unions and employers."

Come in and HEAR

The New Musical Instrument

BRUNSWICK'S latest development is the most scientific mechanical instrument, reproducing recorded music in its fullest value. A demonstration will win your approval. Prices range from \$115 to \$300. Compare it with the

Panatrope

We cannot justly describe the music of this wonderful new electrical reproducing instrument, so we ask you to hear it. It is absolutely a revelation. Made in connection with the six and eight tube Radiola Superheterodyne. No batteries. Just plug into your light socket.

Light-Ray Recording Records

This new electrical process of recording has taken the place of the old mechanical method. Hear this wonderful new music today and you will be astounded. We have all the new, up-to-the-minute records, and will gladly serve you.

We have a complete line of R. C. A. Radiolas.
Prices range from \$10.00 up.

Here's Quality Furniture for Your Fall Refurnishing

Right at a time when Autumn refurnishing is being started we offer these 2-piece suites and occasional pieces of living room furniture at uncommonly low prices. The Sofas and Chairs in the Suites are all solid mahogany, upholstered in beautiful fabrics. In design, construction and finish, the occasional pieces speak for themselves. Investigate this opportunity!

Eighth Floor, North, State

This Open Armchair comes in an assortment of good-looking tapestry covers. It is a fine value.

\$42

This Spinet Desk is made of beautiful mahogany and gumwood and at the price is a rare value.

\$27

Here is a Table of solid walnut. Pleasing in every detail and a value we're proud to be able to offer.

\$27.50

These pieces have tapestry reversible cushions and solid mahogany frames. A very handsome suite.

\$215

This suite has reversible cushions of linen frieze, and solid mahogany frames, mohair covered.

\$237

Four Two-Piece Living Room Suites—Reduced

The Sofa and Chair have solid mahogany frames, mohair cover, and reversible tapestry cushions.

\$187

Carved solid mahogany, covered with mohair, and with reversible cushions of fine linen frieze.

\$295

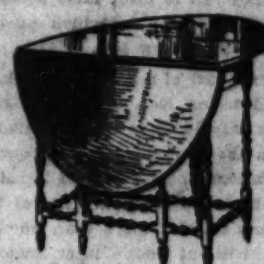

A Girard Easy Chair with separate down cushion and a cover of wool tapestry. A popular Chair.

\$155

This big, comfortable Easy Chair has a long-wearing tapestry cover. You'll like every detail.

\$76

The Gate-Leg Table, in mahogany and gumwood or walnut and gumwood, has a nice drawer.

\$22.50

A New Stemware That You'll Surely Like

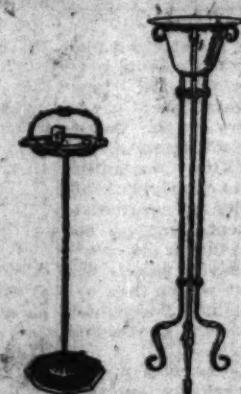

It has just come from Europe, and the shapes and patterns are novel and pleasing. The decorative flowers are in enameled colors. You'll find it quite smart for breakfast or luncheon use. The various pieces are priced from \$20 to \$30 a dozen.

Second Floor, Middle, State

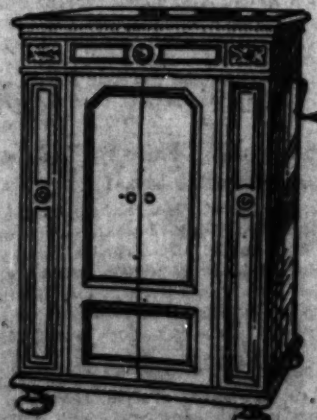

Two New and Practical Pieces of Wrought Iron

The Smoking Stand may be had in black and gold, with a red glass tray, or in green and gold with a green glass tray. The base is octagonal; the stem is twisted. It is now priced at \$5.
The Fern Stand, with a copper bowl, has a base decorated with a leaf design, and a twisted stem. \$4.50.

Second Floor, South and Middle, Wabash

Have You Heard the Victor Orthophonic?

This marvelous instrument has gained such rapid fame that many know of its great popularity but have not heard its beautiful tones. This superb Victrola brings new credit to the phonograph, and we are anxious for you to hear it. There are a number of handsome models, priced from \$95 to \$300. The one shown here is the Credenza, which sells for \$300.

Phonograph Room, Fifth Floor

Some Drapery Fabrics for Your Autumn Decorating

Scotch Grenadine Curtains Are Now \$5.50 a Set

They are pretty and soft, and we imported them from Scotland. The material has attractive figures in soft pastel colors, against a cream background. There is a valance to match, and the fabric is washable. You may have them in rose, gold, green, blue or orchid at \$5.50 the set.

French Lace Panels Are \$10.75 Each

These are imported, hand-tied panels with hand-woven designs and a tassel fringe trimming. They are 2 1/2 yards long and 50 inches wide. An excellent fabric.

Good Quality Zion Net Curtains, \$8.75 a Pair

They are made in our own mills, and we know them to be of an excellent quality. They may be had in a variety of patterns, and they are finished with a heavy fringe. The price of \$8.75 should be exceptionally attractive.

Drapery Damasks at \$2.50, \$3.75 and \$4.50 a Yard

We have just made a fortunate purchase of fine damasks which enables us to offer them at uncommonly low prices. In the assortment there are a great many good-looking patterns, and there are many colors from which you may choose.

Fifth Floor, Middle, Wabash

A Special Selling of Sheets and Pillowcases

The Sheets and Cases which we list here are slightly imperfect. The imperfections are so slight, however, that the appearance and wearing quality are as good as in the regular stock.

Sheets, 81x99	\$1.65 each
72x99	1.50
63x99	1.40
Cases, 45x36	.35

Field Quality Mattress Pads are: 54x76, \$3; 42x76, \$2.50; 39x76, \$2.25; 36x76, \$2.

Heavy unbleached Mattress Cases, in full size, are priced \$2.75.

Second Floor, North, State

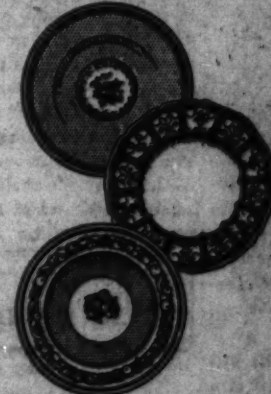

This Dresden Figure Boudoir Lamp Is \$15

Delicate Dresden figures seem quite appropriate for a dainty Boudoir Lamp. You may choose from five different subjects, graceful and picturesque. A silk shade that harmonizes in color and shape is included with the base at this appealing price.

Second Floor, Middle, Wabash

The October Sale of Service and Course Plates

Service, Entree, Dessert and Salad Plates, and Tea, Bouillon, and After-Dinner Coffee Cups and Saucers, priced by the dozen. Royal Worcester, Royal Doulton, Spode-Copeland, Cauldon, Coalport, Crown Derby, Crown Staffordshire and Rosenthal chinaware are included. This is an opportunity to replenish services at very low prices.

Second Floor, North, Wabash

This Leather Desk Set Comes in Four Colors

You may have it in either green, purple, blue or rose. And it has all of the pieces you can possibly need: a paper rack, pad, inkwell, pen, brush, rocker blotter and paper knife. You'll find that it will be a valuable detail of decoration and will add a note of color to your room. At \$20 it is a good value. This is but one of a large assortment from which you may choose.

The Great American Game— Bathroom! Bathroom! Who's Got the Bathroom?

Not a new game. But an old one in too many homes. "Bathroom! Bathroom! Who's got the bathroom?" You probably play it every morning in your home. It's worse than Poker. *Everyone* loses—even your children—when there is only one bathroom in the home.

But through the splendid educational work done by health authorities, architects, contractors and builders, the number of one-bathroom homes and apartments is decreasing each year. Foresighted builders are providing more bathrooms.

See these Model Bathrooms "More bathrooms within the reach of everyone"

The need for more bathrooms in the home is becoming universally recognized. As proof, note the large number of new homes and apartments in your neighborhood which are being equipped with two, three or more bathrooms each. These builders know that an extra bathroom means more comfort to the occupants and more value to the building.

Come, at your first opportunity, to our wholesale display rooms and see actual proof that small bathrooms can be fine bathrooms—that an extra bathroom occupies only a few square feet of space and costs but little extra.

Here you'll find bathrooms for every purse—ultra modern—fine—amply large—complete in every detail—ten years in advance of ordinary bathroom ideas. More bathrooms within the reach of everyone.

You'll find latest bathroom ideas in beauty and convenience. Modern, exquisite color effects with and without tile. Ingenious arrangements of cabinets and other built-in fixtures.

There are ideas for efficient use of limited space. New methods for giving privacy—for making the main bathroom do double duty.

**Hundreds see Model Bathrooms—
Everybody praises their beauty**

From every visitor to our showrooms comes unserved praise. They say, for example:

"That special father's lavatory for close-up shaving is a gem."... "The mirror and dressing tables are wonderful."... "Wall decorations and lighting are alone worth coming to see."... "The personal apparel closets, making each bathroom a partial dressing room, are indeed clever."

**Just west of loop. Near C. & N.W.
and Union Depots**

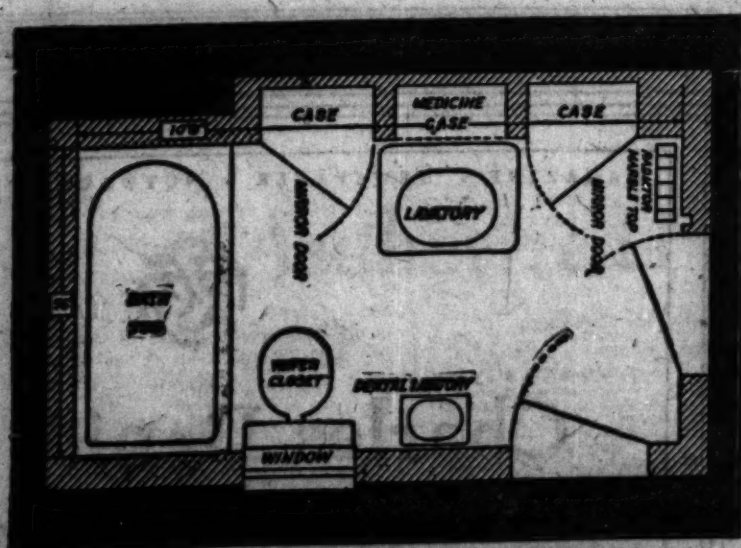

Home owners, prospective home builders, architects, plumbing contractors and real estate men—all will be interested—will be amazed at the modern advancements represented in this remarkable display. No obligations. This display is a contribution by Weil-McLain to the "more bathrooms" idea.

Your visit may mean to you the difference between a commonplace bathroom and one that will be the envy and admiration of your neighbors and friends. A bathroom that will make your house more convenient, comfortable and healthful to live in—more valuable when you offer it for sale.

CHILDREN'S OR GUEST BATHROOM

The two cases for personal linen, in addition to the medicine cabinet, are appreciated conveniences. The dental lavatory will be a daily reminder to the children to brush their teeth.

SON'S BATHROOM

In such a bathroom as this the son of the family may splash to his heart's content. He can be under the shower as often and as long as he likes without inconveniencing others.

DAUGHTER'S BATHROOM

The above bathroom has been planned with a distinctly feminine note. The distinctness and charm of all the appointments will have an irresistible appeal to the daughter of the family.

BRITISH-ITALIAN TREATY IS VOID, ABYSSINIA SAYS

Tells League Pact Hits
Nation's Integrity.

[Chicago Tribune Press Service.]

GENEVA, Oct. 11.—Declaring the Anglo-Italian treaty regarding spheres of economic influence in Abyssinia are null and void and Abyssinia regards the pact as a threat against its territorial integrity, which under article ten of the covenant, Great Britain and Italy are bound to respect, Ras Tafari in reply to the league of nations note for further information asked Secretary General Sir Eric Drummond to deposit in the league register the Abyssinian documents along with the Anglo-Italian treaty.

Sir Eric, replying, informed Ras Tafari that there is no precedent in the registering of the Abyssinian notes, since all the documents sent to the league from Addis Ababa were unilateral and the covenant requires the publication in the treaty series only of regularly negotiated treaties and conventions.

Fear White Powers' Pressure.
However, he is circulating the documents to all the members of the league and conveying them especially to London and Rome and "will make suitable reference in the printed treaty series containing the Anglo-Italian agreement to the notes exchanged between the British, Italian, and Abyssinians."

Repeating his previous arguments against the Anglo-Italian agreement, Ras Tafari says, "The imperial Abyssinian government very naturally is troubled on learning that two great powers have come to an understanding on their course of action toward a friendly country, which with them is a member of the league of nations, without informing that country first. We interpret this as an indication of their intention to combine and exert pressure in order to obtain certain economic advantages if the imperial government should consider that the interests of Abyssinia dictated that those advances should be withheld."

Incompatible with Covenant.
"As thus interpreted the Anglo-Italian pact is incompatible with the terms of the covenant, since it constitutes an indirect threat against the secular territorial integrity and the political independence of Abyssinia, which under article ten Great Britain and Italy have undertaken to respect."

JAMAICAN BISHOP DROWNED.
KINGSTON, Jamaica, Oct. 11.—(P)—The Right Rev. William P. O'Hara, bishop of Jamaica, was drowned while bathing today. His body was recovered. Bishop O'Hara, who was a native of Boston, returned only a week ago from the United States. He headed the Jamaican delegation to the Eucharistic congress in Chicago.

RAISE \$113,000 FOR CHILDREN WITH TAG DAY

Donations of more than \$113,000 to the Chicago Children's Benefit league as a result of their tag sale yesterday had been reported at midnight. Mrs. Charles Frankenthal, chairman of publicity, announced that five organizations had failed to report and that it was estimated the total would be above \$121,000.

"It was the most successful tag day we ever had," she stated. "We are

PLANS PARADES PRIOR TO NAVY- ARMY FOOTBALL

Lieut. Col. Herman J. Koehler, executive for the Army athletic association, after a day spent in the city, announced last night the probable order of events and routes of parade during the week-end of the Army and Navy game on Nov. 27. Today, Col. Koehler will depart with the 30,000 tickets allotted to the West Pointers. The last train load of cadets will arrive over the New York Central at noon on Friday, Nov. 26. They will all be lodged in the LaSalle hotel. In the afternoon the cadets and midshipmen will march along LaSalle street to Wacker drive and over to Michigan avenue. The parade will turn into Grant park at Eighth street and will file into the stadium from the lake side. After the ceremonies of dedication of the stadium, the cadets will be dismissed until midnight.

Saturday's parade to the game will be similar except that the participants will assemble in Grant park at Monroe street. After the game all the cadets, except the members of the team, will depart over the New York Central in sleepers switched to the I. C. depot.

The Hardest Part of a Man to Fit

It is the part that a suit of clothes never touches: his head. The suit may look all right to the bystanders, but unless the wearer himself is genuinely satisfied, it will always be a liability instead of an asset.

That's where spacious surroundings and large, varied assortments come in. Under such conditions, there is no pressure on the salesman to "force" a particular suit; and no pressure on the customer to make a hurried choice or accept something that doesn't really please him.

Rather, in this Store, the customer, assisted, but not dominated by the salesman's technical knowledge, makes the sale—to himself. And he gets more than mere utility out of it. He gets pleasure, a glow of personal discovery and a re-assurance in the soundness of his own taste and judgment.

ACCUSES AIMEE OF FABRICATING CARMEL STORY

Wiseman-Sielaff on
Witness Stand.

Los Angeles, Cal., Oct. 11.—(AP)—Lorraine Wiseman-Sielaff, the star witness, detailed on the stand today her charges against Mrs. Aimee McPherson, evangelist, to prove a woman to pose as the cottage operator at Carmel, Cal., last year.

She made a confession by Mrs. Wiseman-Sielaff that led to the conspiracy on which Mrs. McPherson, who is understood to be the man in a "John Doe" warrant in the McPherson case, has not been charged.

Martin produced newspaper clippings which the McPherson case, and said the evangelist must be cleared, Mrs. Wiseman-Sielaff told her.

Mrs. McPherson paid her \$50, she testified.

Mrs. Kennedy asked her to produce the "little lady" who occupied the Carmel cottage. A few days later she told the evangelist and her mother that the "little lady" was on her way from Philadelphia and suggested it would be better for the "little lady" to be her.

"Miss X" Arrives.
Mrs. McPherson then suggested Mrs. Wiseman was the woman taken for the Carmel cottage and had her purchases, a hat, and a pair of goggles, which she wore by the Carmel cottage, the witness said. Mrs. Wiseman said she spent between seven and eight nights at the McPherson home, sleeping in the evangelist's own bed.

Mrs. McPherson and Mrs. Kennedy

had discussed an affidavit to be made by the "little lady" known as "Miss X," Mrs. Wiseman said, and in a note book she took suggestions for the affidavit.

Mrs. X arrived from Philadelphia, Mrs. Wiseman said, and was driven to Salinas, Cal., where Mrs. Kennedy had arranged to have an affidavit drawn up in the office of Judge Barlin. Roland Rich Woolley, attorney for the evangelist, was present in Judge Barlin's office on August 15, when "Miss X" was drawn up in and the affidavit was drawn up by Judge Barlin, Woolley and Mrs. Wiseman.

Mrs. Wiseman said she swore to an affidavit, one copy of which was sent by airplane mail to "Mr. Martin" in Chicago. The affidavit stated that her sister was the woman at Carmel under the name of Mrs. McIntyre and that she [Mrs. Wiseman] was attempting to "right a great wrong."

The witness then said she brought "Miss X" direct to Los Angeles by automobile from Salinas. She went to Mrs. McPherson's home, seeing the evangelist and Mrs. Kennedy. She advised them she had brought "Miss X" down and told her about the affidavit. Mrs. Woolley was to make an appointment with District Attorney Keyes for Mrs. Wiseman.

Court adjourned at this point with Mrs. Wiseman's story uncompleted.

LEGION URGED TO BALLOT BATTLE AS PEACE DUTY

Importance of Voting
Convention Theme.

Philadelphia, Pa., Oct. 11.—(AP)—A plea to the millions of voters in the United States to vote at elections was the dominant note struck at the opening session of the American Legion national convention today.

"The duties of peace are as vital as those of war," said President Coolidge in a message of greeting to the legionnaires. "In a sense they are more so."

Gov. Pinchot of Pennsylvania won a storm of applause when he urged not only a full vote at elections but clean elections.

The convention attracted 3,000 delegates and alternates. National Commander John R. McQuigg announced in his annual report that the American Legion now had 615,222 members, a gain of 79,614 for the year.

Among those on the platform today

DR. F. E. HAINES HEADS MEDICAL SOCIETY TODAY

Kansas City, Mo., Oct. 11.—The Mid-Western Association of Anesthetists, meeting jointly with the Kansas City Clinical Society tomorrow, will inaugurate Dr. Frances E. Haines of Chicago as president.

"Economic problems in anesthesia" was the title of Dr. Haines' address.

"So rarely are anesthetics administered skillfully that the public readily accepts poor anesthetic results as inevitable," she said.

The patient only should have to recover from an operation, and not from a poorly administered anesthetic also. Eating sooner, he thus shortens the period of expense in the hospital. Convalescence at home is materially shortened and the quicker return to full earning capacity easily pays the additional cost of expert anesthesia."

900 Careful Bus Drivers
Are Guests of the Company

CHICAGO KNIGHTS TEMPLAR INVADE RACINE TODAY

Knights Templar of Chicago and the suburbs, a total of more than 850, will travel by special North Shore trains today to Racine, Wis., to attend the sixty-eighth annual convocation of the Wisconsin grand commandery.

A parade, exhibition drill, a banquet and a ball will be among the features of the day. All the special trains and the railroad station in Racine will be decorated with Masonic insignia.

One of the specials will leave the 630 and Dorchester station at 11:35 a. m. with members of south side commanderies. At 12:05 specials for the north side units will leave Adams street and Wabash avenue. There will also be trains from the west side, to be consolidated in the loop.

Chicagoans Cause Arrest
of Merchant in Hungary

BUDAPEST, Hungary, Oct. 11.—David Perlmutter, a dealer in musical instruments, was arrested today at the instigation of the American legation on the complaint of 100 merchants in Chicago, New York, Baltimore, and Milwaukee. The dealer collected advance payments for musical instruments which he failed to deliver.

HERE'S a fair question— Give it a fair answer

DO you know of a single car that will give so much in service and general satisfaction in return for so little care as will the Ford? Everyone has his story of an ancient, much-abused, much-neglected Ford that goes cheerfully on, day after day, doing the job it was built and bought to do as well as though it had cost ten times its price, and had received the very best of care. It is because service that would be unusual in any other car is usual in the Ford that we sometimes lose sight of the actual quality and workmanship that make it possible . . . Yet, in spite of that quality and workmanship, the Ford is still the lowest priced car, and the greatest value, in America . . . We ask it again—do you know of a single car that will give so much in service and general satisfaction in return for so little care as the Ford?

BAKED POTATO VIC DONAHEY'S STAR OF DESTINY

Led Him to Governorship
Via Economy Route.

BY ARTHUR SEARS HENNING.

[Chicago Tribune Press Service.]
Cleveland, O., Oct. 11.—[Special.]—Away back in 1914 or thereabouts when Vic Donahey, then serving as state auditor, disallowed an extra baked potato on the travel expense account of a Supreme court judge, it was universally realized that he [Donahey, not the judge], was destined for higher things.

Consequently, it occasioned no surprise when an aroused electorate, crying "Down with the extra baked potato!" and all other superlatives, extravagances and excesses in public office, drafted the auditor of state expense accounts for governor and told him to go to it all along the line. Cheerfully did he respond and mightily and with much publicity did he lay about him with his pruning knife in two terms as governor.

Best Coolidge to Economy.
Vic Donahey, according to his admirers, established a record for public economy before Calvin Coolidge was known beyond the shadow of the sacred cod. In the case of Donahey, economy was an inherited, not an acquired, characteristic. He practiced it in his private, as in his public life, as was illustrated when he went camping and fishing up in the north woods and took along a convict from the state penitentiary to do the cooking.

Vic modestly admits that he has accomplished much in protecting the public treasury from the designs of the extra baked potato crowd, but, alas! there is still much to do, for which he will need another term while awaiting the call to still higher things in 1928. The Democrats have voted to keep him on the job, but the unappreciative Republicans are seeking to put the good man down in the interest of a candidate of their own, Myers Y. Cooper. And what these Republican halo snatchers are saying about the young governor would grieve a far more unfeeling man.

Government Cost Up, G. O. E. Says.
They say that while he has been sparing extra baked potatoes on the expense accounts the plunderbund has been up to its elbows in the state treasury and the cost of the state government has gone up millions upon millions since Donahey became governor. They say that what is needed is a governor who will pay as much attention to the bungler as to the expert. Donahey has long been one of the darlings of the Anti-Saloon league, but as Cooper is dry also the league says it will be satisfied with either.

Not so in the case of the contest over the lieutenant governorship. The league becomes apoplectic when it considers James O. Mills, a rich, jovial restaurateur, who is the Republican candidate. Mr. Mills, it appears, has been convicted once or twice of violation of the Volstead act. On one occasion his entire private store of liquors

—pre, as well as post, Volstead—was seized and confiscated. His opponent in the Republican primary was a state senator. A few days before the primary the Anti-Saloon league covered the boardings with this question: "Which do you prefer—the lawmaker or the lawbreaker?"

Preferred the Law Breaker.

The Republicans, by a large plurality, answered that they preferred the law breaker. As a result of which experience the confidence of the Anti-Saloon league in the virtues of the direct primary system has been joined. And, conversely, others who have been prone to condemn the direct primary have been given pause. What caucus of the bosses in the good old days, they ponder, would have had the nerve to nominate a man convicted of law violation? But the plain people do not hesitate to nominate a Volstead law breaker by way of registering their opinion of the Volstead law.

This incident lends additional interest to the question of the abolition of the direct primary which Ohio is to decide by referendum at the approaching election. As required by law, official arguments for and against the abolition of the direct primary have been issued.

After stating the usual arguments

that the direct primary secures rule by the people, the official argument for the other side says:

"The primary system has made it impossible for a poor man to be a candidate for state office unless his campaign is financed by others, which is highly dangerous to the public interest. Eventually it must result in corruption and scandal. The primary has not resulted in a rule of the people. Few votes are cast at the primary. Therefore, the politicians of a few big cities can get together and nominate a state ticket, as an unbroken line of experience has demonstrated."

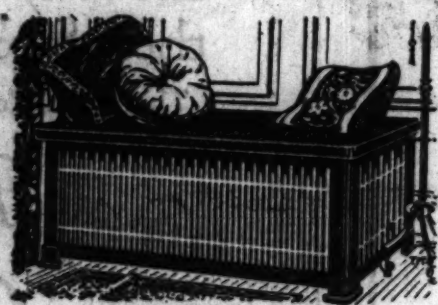

"The primary has destroyed party responsibility. Under it there is no chance for party leaders to get together and consider the duties, responsibilities and opportunities of the party."

Operate on Albert B. Dick;

Condition Is Called Fair

Albert B. Dick, head of the A. B. Dick company, was reported to be in fair condition at St. Luke's hospital last night after an operation for gallstones. The operation was performed by Dr. Joseph A. Capps, assisted by Dr. B. M. Farmer. Mr. Dick is a resident of Lake Forest.

Women!

Beautiful and protected by
Trico De Luxe Grained Metal Covers

Are your beautiful rooms spoiled by ugly radiators?

Your charming rooms lack just one thing—covers on those bare, exposed radiators. In the modern home Trico Covers are as essential as rugs, pictures and curtains. Trico Radiator Covers pay for themselves many times over by completely preventing smudge and streaks on wall paper and drapes. Make wonderful shelves and window seats. And most important of all—their hidden (patented) humidifying water pans provide purified, healthful air through the dangerous winter months.

Reasonably priced—yet permanently beautiful

Colored or grained to match your own decorative scheme, Trico Covers are made of rolled steel in cane or rod grille style—in a wide range of prices. Estimates free. Investigate now before winter. Phone or send the coupon.

ROSEHILL MAUSOLEUM

And For the Living, Comfort!

Beautiful bronze doorway to one of the family memorial rooms.

With a sympathetic exclamation the famous merchant rose from a marble seat in the white pillared entrance hall of Rosehill Mausoleum to greet the young man who had recently lost his father.

"Naturally you laid him here. What could be more fitting!"

"Yet," the young man returned, "I had thought, until I stepped through the great bronze doors here, that only a private mausoleum could appropriately perpetuate father's name and memory."

"The artistic family memorial room I choose offers ample privacy and individual expression, together with that which is so distinctive of Rosehill Mausoleum—thoughtful comfort for the living through dry, even warmth, electric lights and immaculate cleanliness. Such features are never possible at all times in even the most complete private mausoleum."

And this same priceless privilege, formerly unattainable even by the great and wealthy of yore, is now within reach of those with moderate incomes. In the New Addition single crypts cost as little as \$450; family rooms, \$6,500. All are assured the same perpetual care through both a mighty trust fund and the Mausoleum Building Special Reserve Fund. Inquiries, by mail or in person, are invited without thought of obligation.

DEMOCRATIC CLUB WOMEN TO GIVE LUNCHEON OCT. 23

Mrs. George E. Brennan will be toastmistress at a luncheon which the Illinois Woman's Democratic club will give in the Hotel Sherman on Saturday, Oct. 23, in honor of the Democratic state and county candidates.

Mrs. Daniel Gallary, president of the club, will preside at the luncheon, and Mrs. Julia Voorhees Johnson, Illinois state chairwoman, will assist Mrs. Gallary and Mrs. Brennan in receiving the candidates. Mrs. Charles M. Conkey and Mrs. Hobart Stacy are co-chairmen of the committee in charge of arrangements for the luncheon.

PAGEANT OPENS WOMAN'S CITY CLUB SEASON

Members of the Woman's City club inaugurated the season's activities yesterday afternoon at the club's attractive quarters at 340 North Michigan avenue when a pageant written and directed by the president, Mrs. Benjamin F. Langworthy, was presented for members only.

Prominent women took part in the affair, which depicted the more human side of the club's activities. Judge Mary Bartleson, Mrs. Mabel G. Reinecke, collector of internal revenue; Miss Harriet E. Vittum, Mrs. Edward L. Murfey, and Miss Amanda Sears were among those appearing.

KIMBALL REPRODUCING PIANOS

THIS fall and winter you may attend a series of concerts at which every program will be drawn up to suit your personal taste. Every evening, if you wish, you may make free choice among your favorite pianists and composers. On the Kimball Reproducing Piano, the qualities that distinguish each great artist's playing from that of any other are reproduced with the accuracy of a photographic portrait. Through the wonderful Welte* principle, the very personality of the performer is as plainly revealed as if he were playing on the keys.

WHEN present rates were made, LIBERTY promised its advertisers a circulation of 1,100,000 copies. They got it. Now, LIBERTY announces an average NET PAID circulation of

1,350,000 during 1927. LIBERTY will keep its promise. Those buying space before Nov. 1st, therefore, receive a bonus of 250,000 circulation per issue, or 3,250,000 on a 13-time basis, absolutely free.

99% of LIBERTY'S Circulation is Newsstand and Boy Sales

TWO YEARS OLD and ALREADY SECOND in Advertising Lineage

LIBERTY has already announced that it printed more advertising during the first six months of 1926 than any other magazine of general character, with the exception of The Saturday Evening Post. LIBERTY has not only held second place during July, August and September also, but increased its lead over the 3rd magazine by more than 50,000 lines.

THE phenomenal growth of LIBERTY is the result of unprecedented endorsement of many leading agencies and outstanding advertisers in all classifications of American industry. Others can make their advertising more effective at a low cost by using LIBERTY. It is advisable to get details before the advertising rates are increased on November 1st.

SEEK TO BEAT GRAND JURORS TO STEPHENSON

Writ of Habeas Follows
Inquiry Subpoena.

(Continued from first page.)

Admission to permit it to learn anything from him, but it would also be an impediment to an immediate and effective investigation by the grand jury. Under these circumstances, such a committee would contribute little in a preliminary way and nothing finally or authoritatively in an inquiry as to the facts. Respectfully yours.

"ARTHUR L. GILSON." Perhaps Adams' wish for an open hearing may be gratified in the court room bearing before Judge Miller. It appears certain that if Stephenson were on the stand to tell of his assets and will talk, he will be given an opportunity to tell it all and that he may produce all the important documentary evidence he may have. Contracts and cancelled checks to which jobs and patronage are said to have been bartered by men in high office.

Borah Asks Information. Washington, D. C., Oct. 11.—(Special.)—Papers to support his charges of Ku Klux Klan political corruption in Indiana, have been forwarded by Thomas H. Adams, Vincennes, Ind., publisher, to Senator Borah (Rep., Ind.). It was announced by the latter today. The senator intimated that he sought complete information on the situation before making definite plans to campaign in Indiana for the election of Senator Watson (Rep., Ill.).

He also hinted that if Adams' charges were justified, he might insist upon an investigation by the senator's special election quiz committee headed by Senator Reed (Dem., Mo.).

Teacher's Daughter Wins in Bloomer Controversy

Lincoln, Neb., Oct. 11.—(Special.)—The daughter of the Rev. F. K. Smith, of Grand Island cannot be compelled to wear gymnasium or wear bloomers while doing so, declared Attorney General O. S. Spillman, in an opinion today. The state legal department was informed that the Grand Island school board had threatened to bar the woman's daughter from school because she refused to take gymnasium, or wear bloomers. The wearing of bloomers is the crux of the controversy, such apparel being against the religious beliefs of the Nazarene church clergyman.

Hospitallus, New Secret Order, Rises from Ashes of Fallen Indiana Klan

BY PHILIP KINSLEY.

(Chicago Tribune Press Service.) Indianapolis, Ind., Oct. 11.—(Special.)—Upon the field of gold and high titles, where move those mysterious forces that play behind the scenes of modern American politics, the Ancient and Accepted Order of Hospitallus is the latest arrival.

An immediate outgrowth of the fallen Ku Klux Klan in Indiana, it is arrayed today, according to its grand commander general, William H. Brightmire, against crime and corruption in politics and demands a fearless and honest investigation of the charges of David C. Stephenson, the fallen dragon.

Operates in 15 States. The organization keeps its headquarters here secret, but is said to be 15,000 strong in this city and to be operating in fifteen states, including Illinois. D. Lee Andrews is the Indiana lieutenant.

The names of its officers are also secret, but it has an "honorary legion" containing the names of many high in educational and political life. All the members by oath become secret service workers for the cause and the initiation fee of \$50 a member is used for purposes of investigation.

The grand commander general is an elderly ex-minister of the Methodist church who was formerly an organizer and lecturer for the Klan, close to Stephenson, the man who first exposed the immoral practices of the grand dragon to the imperial wizard, who had Stephenson expelled from the Klan.

Removed from the Klan, when he had learned many sad and valuable lessons, including the doctrine of Barrum reflecting upon the high birth rate of the gullible, Dr. Brightmire had a bright idea to which he has since devoted his energies.

"Our method," he said, "is to get behind the authorities that we know can be trusted and bolster them up.

or force the dishonest ones to do their duty. We are working now in this Indiana situation, meeting every night.

"We are not against any race or creed, and our simple object is law enforcement and war on immorality and corruption in office. We are not in politics.

Creed of the Order.

Taking its conception from those first hospitallers, the knights in Jerusalem who housed poor and wounded pilgrims, the creed of the American commandery is set forth as follows: "We shall do all in our power to cooperate with the press, churches, and similar organizations in causing public opinion to smash down the fabric of legal nonsense, expert testimony of purchased psychologists and alienists, technical loopholes, delays, and corrupt trial methods which allow 90 per

cent of willful murderers and other vicious criminals to escape justice.

"We shall expose all behind scenes politicians who vote dry and pick wet enforcement officials.

"We shall expose all law enforcement officials who countenance crime, immorality, graft, and lawlessness.

"We shall cause to be convicted and sentenced to long terms in penitentiaries all leaders and members of large crime syndicates.

"We shall do all in our power to demand that insane murderers receive the full penalty of the law.

"We shall warn all parents of the device to lure their sons and daughters from the straight and narrow path. We shall demand greater home control be exerted over the lives of the younger generation.

"We advocate blood tests before marriage, also strict marriage and divorce laws."

Prefers Woods.

(Copyright: 1926 by the News, New York.)
Grand Piles One, Oct. 11.—Fashionable society of New York is reported slowly recovering from the shock it received last week when Mrs. Anne Duggan (Mrs. Potter) Stillman, wife of James A. Stillman, banker, at her summer camp at Grande Anne, announced the engagement of her son, James A. Stillman Jr., and grandson of James, the first, founder of the National City bank of New York, to Lena Wilson, a native of the great north woods country.

James or "Bud" as he is known to his family, in confirming the news at Princeton, where he is a senior, snapped his fingers at so-called fashionable society, and said he didn't care a rap whether members of high society took up the future Mrs. Stillman or not. He plans to marry the little backwoods girl, who has been employed at his mother's Canadian camp for the last five years, soon after his graduation next spring.

Related to Rockefeller.
"I think mother and I feel very much the same on this subject," said the wealthy young man, heir to the Stillman millions, and related to some of the most powerful families, socially and financially, in New York. He is a nephew of Mrs. Percy Rockefeller and of Mrs. William G. Rockefeller, both sisters of his father.

Mrs. Stillman today, in backing up her son in his choice of a bride, made some pertinent comments on fashionable society as now constituted.

"I have no quarrel with what the papers are accustomed to term fashionable society," Mrs. Stillman said. "I am not now and never really was an intimate member of the charmed circle called smart society. That is to

say, I have never, sheep fashion, followed the leaders of the fashionable herd.

"For some years I had a nice home in Newport and enjoyed the seasons there, but I am adaptable. I could be as happy on Grand street, New York, as on Park avenue; it is all in one's mental attitude.

Does Not Play Bridge.
"One will find people in Newport bored with life the same as people anywhere lower down the social scale. But I enjoyed Newport because I did the things I enjoyed doing, not because of the number of fashionable entertainments I attended.

"I am happiest out of doors, swimming or playing golf or tennis. I don't play bridge. I never learned to play. I had a reason for this. Not being able to play, I would never be asked to take a fourth hand at bridge. Just fancy having a personality that could command no more interest than an invitation to take a fourth hand at bridge.

"At the same time I have watched the women of Newport playing bridge on a hot summer's afternoon with no little interest. Personally, I shouldn't care to pass a beautiful summer afternoon indoors, playing bridge, but I observed with a certain interest these women playing, their slender, highly maneuvered fingers reaching over the card tables like long talons. As a rule they played for high stakes. I am sorry to say, too, that they were never

very sweet tempered about their losses.

Society Takes Self Too Seriously.
"I don't deny I find considerable enjoyment in a splendid entertainment, the perfectly appointed table service, with its fine glass and silver and flowers, the beautiful gowns and jewels of the women and the excellent music and food and the lighter diversion such affairs lend to an otherwise rather sordid world. So called society should be the decorative side of life, as beautiful as the crest of a wave. But society, or what we have become accustomed to call society, takes itself so seriously, that it often causes me to smile.

"Newport, for instance, is beautiful and may be enjoyed, but such enjoyment to my mind, is not to be found in the feverish manipulation of stacks and stacks of cards indoors on a beautiful summer afternoon.

"As I have said, I have no quarrel with fashionable society. But I prefer, on the whole, the free, wholesome life of this wonderful wood country. In New York I sometimes wonder if there is a God. I never experience such a doubt up here.

Children Also Enjoy Outdoors.

All four of Mrs. Stillman's children, including "Bud," share her indifference of fashionable society.

Only last week Mrs. Henry P. Davidson, only daughter of the Stillmans, whose husband is one of the heirs of

the great fortune left by Henry P. Davidson, former member of the banking firm of J. P. Morgan & Co., returned to her fine Long Island estate after passing the summer in the great wilderness about the Stillman's Quebec summer camp.

Speaking of the atmosphere of the simple life in which her children have been reared in spite of the Stillman millions, Mrs. Stillman referred to Mrs. Davidson's preference for the simple, backwoods life.

Simple Things More Important.
"Mrs. Davidson has what society would call the essentials for happiness," said Mrs. Stillman. "expensive cars, every facility for entertaining on a fine scale, fine clothes, and many friends, yet she chose to come up here this summer, where she found the greatest enjoyment in weeding the garden and in the simple diversions of fishing and camping.

"To my mind the simple, natural things are the more important. These are the things, too, that bring the greatest satisfaction. It is in the nature of children as well as grownups to prefer simple pleasures. When children are not satisfied with these, it is usually the fault of the parents.

If A Certain Well-Known Gentleman

who made a rather important discovery in 1492 were alive today he would be amazed to see how easy it has become to "discover" a continent.

Tens of thousands of tourists who visit Europe every year now find it almost as simple a matter to arrange for a trip abroad as to visit a neighboring state—thanks to the steamship agent.

What a world of information the steamship agent spreads before one! Diagrams of ships—palatial Cunarders—rates, sailing dates—not only for the outgoing but also for the return voyage; information as to places and cities to visit, hotels, railroads—even estimates on living costs abroad.

The steamship agent also makes ship reservations and supplies tickets.

Indeed, within the office of the steamship agent one finds a complete and courteous service that contributes in no small measure to the convenience and joy of planning a transatlantic voyage.

STATE STREET Mart of Marvels

From pack train, covered wagon, and the dimly oil-lit trading posts of old Fort Dearborn to the cloud scrapers housing a multitude of merchandise gathered from Tokio to Tangier, is a far cry indeed.

To State Street, for mounting myriads of eager buyers, comes the choicest of the world's wares—a fairland of merchandise—a veritable mart of marvels.

The dim, dust-strewn trading place of an earlier generation has vanished before the kaleidoscopic blaze and beauty of the world's greatest and most concentrated retail shopping center—State Street.

For 71 years we have been an intimate part of Chicago's growth and life.

Visit State Street's Illuminating Festival, October 14-15-16.

STOP BAD BREATH

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

Olive Tablets bring no griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take nightly for a week and note the effect. 15c, 30c, 60c. All Druggists.

RUSSELL SCOTT'S FATE WILL BE DECIDED TODAY

Case Before High Court;
Hanging Set for Friday.

(Picture on back page.)

Whether Russell Scott, condemned murderer, who was once moved from the room by the exact margin of two votes, is to hang on Friday will be decided today by the Illinois Supreme Court.

Scott's attorney, William Scott, who obtained the insanity verdict that prevented the hanging at the time originally scheduled, is in the city and will plead that a later verdict, in which a jury found that the defendant was sane, is invalid. The first case came up before Judge Joseph B. David in the early hours of the morning. Scott, with only the two votes of life left to him, was taken to the courtroom, a jury was summoned, and after testimony of alienists had been taken, he was sent to the Chester prison for the criminal insane.

Found Sane Year Later.
Less than a year later Chauncey Jencks, director of welfare for the state, advised that Scott was not sane. Alienists at the asylum backed up his opinion, and the next hearing, called before Judge Marcus Kavanagh, brought the verdict that he was sane and thus eligible to hang.

It is on this point that Attorney Scott is making his fight. He seeks to prove that Judge Kavanagh invalidates the verdict when he refused to change venue. The way to the matter before the Supreme Court was opened yesterday, when Justice T. Vall, clerk of the court, read the writ of error. Today the court will either approve the writ and set aside the verdict, or will decide that Scott has no legal ground to keep him longer in the gallows.

Judges Get Documents.
The judges have received a copy of the documents on which the appeal was based. The second insanity verdict is based on the conviction of Scott.

for the shooting of Joseph Maurer in the City Hall pharmacy during a holdup, numerous efforts to save him were made. An appeal for a new trial was denied. An attempt to obtain a pardon from the governor failed. Already the Supreme court has denied a writ of supercedas in connection with the original trial, and one of the integrating questions to be decided is whether this will act as bar to a similar writ in the insanity matter. Meanwhile Scott's brother, Robert, has been tried for the same murder. Russell's attorneys maintain that Robert, who was sentenced to the penitentiary for life for the crime, was the real killer.

In his cell at the county jail yesterday Russell asserted that he was surprised to learn of the new effort in his behalf. He added that he was not much interested. Weak, wan, and emaciated by his confinement and his life in constant fear of the gallows, he admitted that he "didn't care much."

"I've got to die some time," was his philosophical message. "I would like to do something to show I appreciate the loyalty of my wife and the efforts of my attorney."

Choosing

There is a right and a wrong way of choosing - Externals, attractive to the eye, do not prove quality - In choosing a piano, many are influenced by externals, beauty of case design, an advertised artistic supremacy etc.

"The first consideration is 'tone quality'. Without it, the piano, however beautiful to the eye, becomes an offense to the ear.

The Chickering

while excelling in beauty of design, is characterized by a richness, sonority and depth which sets it apart from all other pianos.

The Chickering TONE is found only in the CHICKERING Piano. It cannot be imitated!

We invite you to hear it.

They cost more—
yet cost less

Here is how it figures out. A 45-volt Eveready Heavy-Duty "B" Battery costs a little more than the smaller 45-volt Light-Duty Eveready No. 772. But Heavy-Duty batteries last twice as long as the smaller batteries on the same set and under the same conditions, so that these Heavy-Duty "B" batteries really cost less.

If you are buying a new set, insist on getting Eveready Heavy-Duty "B" Batteries (No. 770) or the even longer-lived Eveready Layerbilt No. 486 as original "B" battery equipment.

RUSH COMPLETE PLANS FOR VAST RIVER PROJECT

Railways Aid Work on
\$400,000,000 Job.

City officials are today rounding into shape their complete plans for the straightening of the south branch of the Chicago river from Polk to Sixteenth streets, a project that was made possible late Sunday night when railroad companies whose properties will be affected by the change gave their approval, necessary to the completion of the work.

Five or six years hence, the project will be completed, and Chicago's south central business district will have running through it rearranged railroad tracks, and extensions for La Salle, Wells, Franklin, and Market streets, with a mammoth new union depot for roads now occupying the Grand Central, La Salle, and Dearborn stations.

\$400,000,000 in Project.

When the river bed has been changed, the railroad terminals rearranged, the new bridges built, \$400,000,000 will have been spent, an outlay that will mean the most important improvement in the city plan since reversal of the river's current in 1880.

Included in the preliminary work yet to be done, before digging of the new canal is started, is the advertising and letting of contracts for the work to be done by the city by Commissioner of Public Works A. A. Sprague, who is now in St. Luke's hospital undergoing treatment. A number of conferences between the city and railroad officials will be held to iron out a few questions that are involved in the time of starting, the amount of work to be done each year, and the part each is to play in the project.

First of these steps were taken yesterday when Corporation Counsel Busch ordered Special City Counsel Eugene H. Dupe and Consulting Engineer Edward J. Noonan to prepare a complete schedule of the construction program, which is to be approved by railroad and city officials before work is started.

Two Roads Plan Terminal.

Other steps that were taken were by the New York Central and Baltimore and Ohio railroads, which announced that they had already spent

RIOT IN PRUSSIAN DIET OVER DEAL TO PAY EX-KAISER

Reds Object to Giving
Castle to Wilhelm.

BY GEORGE SELDES.
(Chicago Tribune Press Service.)

BERLIN, Oct. 11.—The Prussian government, dominated by the Socialists, persists in its intention to push through the recent financial compromise with the deposed Hohenzollern family. The measure, which proposes to pay the ex-emperor's family \$5,000,000, got a first reading today in the Prussian diet. Owing to the communist uproar, the meeting degenerated into a beer garden brawl, and adjournment was forced.

The Prussian finance minister, Dr. Hopker-Achhoff, defended the measure. More than 100 of his followers gathered about him to ward off the physical attacks which the irate communists threatened. The minister scoffed at the theory

that the former emperor would return to the fatherland. It was true that the Prussian government agreed to give him the castle at Homburg for his eventual residence, he said, but it was not to be feared that he soon would use it. The house then went into committee of the whole, and the Homburg castle question, which has so agitated the German public in the last few days, was again raised.

Hopes to Stop Tax Dodge.

Tax dodgers understand the finance minister explained that the provision for the castle as a residence for the ex-emperor enabled the Prussian government to levy a capital tax on the cash sum of 15,000,000 gold marks (about \$3,750,000) to be paid to the former ruler. If the former emperor had no official place of residence in Germany he would be able to dodge the taxes, whereas, by giving him Homburg castle, he would have to pay like other Germans.

Von Hindenburg Clears Self.

President Paul von Hindenburg knew nothing about the participation of the eldest son of the former crown

prince in the recent German army maneuvers until he read about it in the newspapers may an official communique issued here today. The official denial, it is declared, has reassured public opinion.

Guthrie Picked by Tories of Canada as New Leader

(Chicago Tribune Press Service.)

Ottawa, Ont., Oct. 11.—[Special.]—The Conservative party tonight, following the resignation of Arthur Meighen, selected Hugh Guthrie as leader in the house of commons for the session of parliament opening in December. The selection is only temporary. A party leader will be selected at a caucus to be held later in the year.

TRAFFIC PLANS COMPLETED FOR LIGHT FESTIVAL

Bar Autos on State Street
Three Evenings.

While electricians set in place the new lamps of State street's new \$100,000 lighting system, police officials yesterday completed traffic plans for the day illumination festival marking the completion.

Thursday, Friday, and Saturday, from 8:30 to 10:30 p. m., all vehicular traffic will be barred from State street at the loop. It was announced. No parking will be allowed in these hours on Wabash or Dearborn between Lake and Harrison streets.

From 8 p. m. until midnight, each evening, parking will be prohibited on Lake, Van Buren, Harrison, and Dearborn streets between Dearborn and Wabash, and on Holden court between Madison and Randolph.

Expect Record Crowds.
Crowds outnumbering those of the Christmas shopping season are expected to jam State street for the festival. By far the biggest crush is expected Thursday, the night of the parade. Between 400 and 500 mounted police, in command of Lieut. David Flynn, will be on duty Thursday evening, and about 100 the other nights.

Garrity, Marshal of Parade.

Parade in the parade will assemble south of Van Buren street and move north to Lake street where the parade will disperse. John J. Garrity, former police chief, has been selected as marshal. The floats will depict the signs of illumination progress from the woman's fire to modern electric lights. There will be bands.

clown, contetti and other circus features.
Two great arches are being erected at the Lake and Van Buren street elevated stations as ends of a court of honor embellished on both sides of State street with festoons of green leaves. Thousands of imitation jewels, studding the arches, will be played upon by colored searchlights.

CHAUFFEUR FOUND DEAD IN STREET.
William Ashley, 55 years old, 5756 West Van Buren street, a taxicab chauffeur, died at the county hospital yesterday, supposedly from heart disease, a few hours after he had been found unconscious in the street near California avenue and Flournoy street.

23 Army Enlistments in Day Set Five Year Record

Enlistment records of five years' standing were broken yesterday at the local army recruiting office, 107 West Van Buren street. It was announced by Maj. Alfred E. Sawkins. Twenty-three men signed up for three years with the colors, and they will be sent to the field artillery training center at Fort Sill, Okla. At this post there are schools for radio, telephone, and telegraph operators, motor mechanics, cooks, blacksmiths, and saddlers, as well as gunners.

Lower operating Cost

FACTS

This is one of the reasons why electric refrigerators are more popular than all other electric refrigerators combined. Additional reasons are covered in other advertisements.

Frigidaire Offers More for Less New Low PRICES

Frigidaire mechanical units for installation in the standard makes of ice \$170. Model M-5-2 metal cabinet Frigidaire—over \$6225. Model M-7 metal cabinet Frigidaire—over \$355. Model M-9 metal cabinet Frigidaire—over \$395. (All prices f.o.b. Dayton.) And any Frigidaire may be purchased on the General Motors deferred payment plan.

FRIGIDAIRE'S reputation for economy of operation is based on certain definite features of design and construction—features that are found only in Frigidaire.

The sturdily built Frigidaire cabinet is designed exclusively for electric refrigeration. It is thoroughly insulated against heat—an important feature in reducing operating costs. But of even greater importance is the Frigidaire frost coil—a development that replaced the less efficient brine tank. It maintains uniformly low temperatures and provides greater cooling power from a smaller amount of current.

Only in Frigidaire can you get these features of Frigidaire construction, Frigidaire design and Frigidaire economy. And only in Frigidaire can you get the larger food storage space, the greater ice making capacity, the finer finish, the quiet operation and the more precise engineering and manufacturing methods of General Motors. If you want true Frigidaire economy, efficiency, and dependability, be sure that the electric refrigerator you buy is a genuine Frigidaire. Size for size, it is the lowest priced electric refrigerator you can buy.

MANDEL BROTHERS COLUMBUS DAY—What an occasion for the younger generation to venture in quest of new apparel

Coats to go adventuring \$75 and \$85

Doubtless in the balmy climate of his first landing, Columbus never realized how sharp and snappy October days could be.

But the young modern (wise in this respect beyond Christopher) makes early selection of a smart warm coat attractively fur-trimmed at neck and wrists.

Kit-fox trims the coat of veloria, left, while vicuna ornaments the other of the same soft fabric. \$75.
Another of luella is also trimmed with kit-fox. \$85.

Frocks \$ \$25 \$35 Illustrated above

Isabella gave all her jewels that Columbus might see America—but our modern maid doesn't have to part with anything like that to see "Paris" in the clever lines of these three frocks, sketched above. They are all of crepe, of course—the first on the left of satin, the other two of canton.

Sub-deb slippers

They have chic—they are new—but, most important of all—they instantly win sub-deb approval.

A swaggar shoe for walking is the three eyelet tie in tan calfskin. Lizard trimming gives that sophisticated touch to the other model.

Formerly priced much higher, they are a noteworthy value at 6.75.

Nina, the younger, discovers the warmth of wool

and its possibilities in this snug buttoned, high collared sweater, tan or blue, at 2.95.

Sizes 6 to 14

She continues the demonstration—in a smart little imported tam and scarf of soft brushed wool. Blue, tan, or white, 2.95. New red and blue Berets, of suede cloth, 1.50.

Pencil boxes, 50c to 1.75

—in whose contents may repose the very pencil that will bring to light a theory as startling as Columbus' own spherical deduction.

Girls' jersey frocks

5.75 6 to 14 years 12.75

The young moderns of today consider chic far more important than a stodgy old Columbus long since dead! Observe a frock of all-wool jersey, smartly smocked, 5.75. Or one of French spun jersey in navy with red, 12.75.

Fur trimmed coats, 27.50

As for coats—the flippant miss airily demands an abundance of fur. These of Kyrama cloth have Australian opossum collars. In green, red, or blue.

Fall hats for the 'teens Velour, felt, velvet, and leather hats— some original French models

5 8.75

In all the cheery autumn colors, these smart new hats and flippant tame for the Sub-deb will be among the brightest spots on the fall landscape. Imported English leather hats and jolly felts, velours and velvets, \$5. Piquant French hats from 8.75 to 11.75.

Tams of cloth and velvet for younger and older girls, 1.95 to 5.95.

Street and afternoon styles in velours and velvets, with motifs, 5.95 to 8.75.

Reflecting the holiday mood Gay fabric Gloves for girls

For girls 3 to 12 years 85c

Washable, with embroidered backs and dainty cuffs. In rosewood, oak, walnut, cinnamon, and medium gray.

Boys' and girls' Cotton and wool union suits

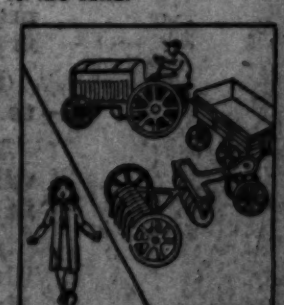

Cotton suits for children at 1.50. Dutch neck, elbow and knee lengths, drop seats, 4 to 10 years.

12 to 16 years, 1.75

Misses' mercerized and wool suits in low neck, sleeveless and knee length, and Dutch neck, elbow sleeves. Sizes 4 to 10, 2.50; 12 to 18, 3.75.

Tractor sets, 68c

Of red and green, 31 inches long. With one of these the youth of the nation will need no persuasion to forget his saffron notions and "stick to the land."

Walking and talking dolls, 1.95

"Mama" cries this 24-inch full jointed doll, whose curly head moves from side to side when she walks.

Imported Wool sport hose 1.50

with turn over tops 3/4 or 3/8 length. Sizes 6 to 10.

NOTIFY POLICE OF ALL PAROLES, CITIZENS URGE

Crime Commission Will Expand Activities.

Sixteen prominent citizens and officials, questioned by the Chicago crime commission, were unanimously in favor of a provision in the parole laws making it compulsory to notify the police when a convict is released on parole, according to a report by the commission made public yesterday.

The report also included a recommendation that the commission extend its work into the criminal branches of the Municipal courts, employing twice as many operatives as now. It is planned to get in touch with the victims of robberies and burglaries and offer them the services of the commission.

Clabaugh Makes a Criticism.

"The police should be notified when a convict is released from prison on parole," declared Hinton G. Clabaugh, supervisor of the state board of pardon and parole.

"Instances have come to my attention, wherein the police, without warrant of law, arrested parolees although there was no evidence against them."

State's Attorney Crowe also endorsed the idea. "It would enable the police to keep a check on parolees and aid them in solving crimes," he said.

"If the police did not know that certain men were on the streets and not in jail, they might be hindered in their investigations."

Chief of Police Morgan Collins asserted that police never persecute an ex-convict or a prisoner on parole un-

GERMAN DYE PATENTS SUIT LOST BY U. S.; MAY BRING SENATE INQUIRY

Washington, D. C., Oct. 11.—[Special.]—Efforts of the government to invalidate the sale of seized German chemical and dye patents, trademarks and copyrights to the Chemical Foundation, Inc., during the Wilson administration, came to naught today when the United States Supreme court sustained the sale and upheld the finding of two lower courts that neither conspiracy, deception nor fraud marked the transaction.

Foremost among the grounds urged by the government for cancellation of the sale and recovery of the formulas and patents was the contention that the \$271,000 received for them from the Chemical Foundation, Inc., was a wholly inadequate price for more than 5,000 dye patents and formulas valued at approximately \$7,000,000.

Failure of the Daugherty-Miller jury in New York to agree and the opinion of the Supreme court validating the sale of seized German patents emphasize the necessity for a senatorial investigation of the administration of the office of alien property custodian, according to Senator Borah (Rep., Idaho), chairman of the special committee to conduct such a quiz.

less he is suspected because he is consorting with thieves and frequenting disorderly houses.

Gore Approves Surveillance.

"Offenders are entitled to parole," commented Edward E. Gore, president of the Chicago Crime commission, "who are known to the police to be of criminal inclination and it is but fair that the police should have notice of their release. Surveillance by the police may be accepted by a paroled convict as a part of the penalty for his offense."

"In Illinois the parole authorities have a wholly insufficient force to keep in contact with paroled prisoners, and the regular police should be notified when a man is paroled," said Charles R. Holden, vice president of the Union Trust company.

SOUTH AMERICA ROUND AIR TRIP ITINERARY GIVEN

Planes to Start 18,000 Mile Flight Dec. 15.

(Chicago Tribune Press Service.)

Washington, D. C., Oct. 11.—[Special.]—Detailed plans for the army's 18,000 mile airplane flight around South and Central America, the most ambitious venture in the air undertaken by the war department since the world flight, was announced by Secretary of War Davis today.

All foreign countries along the route have given their formal consent, it was stated, and the flight is now scheduled to begin Dec. 15. Seventy-one cities along the coast lines of the Americas will be visited before the aviators return to the United States, probably some time in April.

Nicaragua will be the only country

which will not be included on the schedule.

Arica Not on List.

Although Bolivia does not appear on the list of nations to be flown over, the aviators will go there without their planes. Arica, the center of the Tacna-Arica boundary dispute between Chile and Peru, was originally on the schedule, but for unannounced reasons it has now been omitted.

Stimulation of interest in commercial aircraft manufactured in the United States is one of the chief objects of the expedition. Other purposes, as outlined by Secretary Davis, include the strengthening of amicable relations, demonstration of the feasibility of aerial transportation and communication between these widely separated nations, and, finally, the subjecting of the amphibian airplanes to severe practical service tests over both land and water.

Start Made at San Antonio.

The flight will begin at San Antonio, Tex., follow the east coast of Mexico,

cross the Isthmus of Salina Cruz and thence to the army air station in the Canal Zone. From there the flyers go to Valdivia, in Chile, where they turn east and cross the continent to Bahai Blanca on the Atlantic coast of Argentina. The planes follow the coastline northward, leaving the mainland of South America at Trinidad. From there they fly to Porto Rico, Haiti, Cuba and Miami.

No attempt will be made to set a speed record, and it is expected one day will be spent at each stop. The longest hop is 565 miles and the total distance 18,534 miles.

YOUR STREET CAR MAN

THE 12,000 trainmen who man the street cars of Chicago are the personal representatives of the Chicago Surface Lines. The management depends upon them for courteous and satisfactory public service.

They have been selected with the greatest care.

A good reputation, physical fitness and intelligence are prerequisites of employment.

The trainmen have proved by an average of ten years' experience that they know their business and are reliable and trustworthy.

In spite of all that can be done, however, individuals get into the service who are not in harmony with the spirit of the organization and, due to the large number employed and the nature of employment which makes constant supervision impossible, it is difficult to weed them out.

The management will appreciate co-operation on the part of passengers in reporting any incivility.

Courtesy and good service are the watchwords of the Surface Lines organization.

"What I Did with
Tribune
Want Ads!"

HUNDREDS of letters have been received—and their contents prove that Tribune Want Ads have been turning points in many lives. Want Ads have led to happiness in the most unexpected ways. The letters are being sorted now and soon the best ones will be published. (\$5 is paid for every one printed in The Tribune.) Write a letter at once if you haven't done so before—write another if you've had any Want Ad experiences in the meantime. Tell us your Want Ad story—"What I Did with Tribune Want Ads." You may share in the following prizes:

1st prize \$500
2nd prize 200
3rd prize 100
4 prizes of ... \$25 each
10 prizes of ... \$10 each

\$5 for Every Letter Published!

The conditions are simple: Tell your story in 500 words or less. Send us your address and phone number. The contest is open to everybody, everywhere. Your story should tell what success you had with Tribune Want Ads and what it led to. The contest closes December 15th. Write it NOW. Address the Want Ad Contest, 1112 Tribune Tower. And remember, \$1,000 IN CASH PRIZES!

81 Room Hotel Rented!

"Two months ago, during the dull season, we started to use Tribune Want Ads six days each week. The results were immediate and since then we have kept our 81 room hotel practically 100% full. The cost of our advertising was \$12.50 per week and the results have been worth many times that amount to us."—E. J. Meelbush, Manager of the Hotel Whitcomb, 5107 Kenmore Ave.

200 Replies

"A Want Ad we ran in The Tribune recently brought in over 200 replies. We have been advertising motorcycles for sale in the Want Ad Section for about two months and in that time we have sold about 25 machines. Tribune Want Ads have sure helped to build our business."—Daniel B. Mack, Mack's Motorcycle Shop, 4237 Irving Park Blvd.

Surpassing beauty in these linoleum floors!

Blabon floors of Inlaid Linoleum strike the keynote of colorful decorative schemes for the home.

From the dignified entrance hall to the dainty bedroom and cheery enclosed porch, there is a Blabon pattern particularly appropriate and harmonious.

The Blabon Marble Tile Inlaid, and the effective two-tone Jaspés, are splendid examples of the beauty and art that characterize Blabon's Linoleum.

Aside from their beauty, Blabon floors of Inlaid Linoleum are economical to maintain. Their colors and patterns go through to the burlap back, and remain clear and bright as long as the linoleum lasts. When cemented down over builders' deadening felt—the modern way—the seams are practically invisible and the Blabon floor is permanent.

Blabon floors are comfortable and quiet to walk upon, and easy to keep clean.

Home furnishing and department stores will show you the new decorative patterns in Blabon's Linoleum.

Ask for Blabon's Linoleum by name. Our illustrated booklet, "The Floor for the Modern Home," sent free, upon request.

Collier's

**makes your advertising
dollar buy 200,000
extra readers**

Advertising agencies, trustees of other peoples' money, try to make their clients' dollar buy more than a dollar's worth. They are placing heavy schedules in Collier's for 1927.

On October 1, the orders for advertising to appear in 1927 were 64% greater than the orders on October 1, 1925, for advertising to appear in 1926.

Collier's editorial policy, under Crowell management, has more than doubled Collier's newsstand sales. And the growth continues. Circulation has steadily increased at an average of more than 14,000 a month for 24 months.

Advertisers who buy space for 1927 will receive 1,300,000 circulation at least.★

★ The actual print order for the issue of October 30, 1926, is

1,535,000

LABOR INDORSES CITIZENS' ARMY TRAINING CAMP

Sidesteps at Al Smith for President.

BY THOMAS WREN.
(Chicago Tribune Press Service.)

Detroit, Mich., Oct. 11.—(Special.) Citizens' military camp were inaugurated and hailed as the developers of the country's youth while the resolution requesting an endorsement of Gov. Alfred Smith for President of the United States was avoided here this afternoon by the 4th annual convention of the American Federation of Labor.

The thrust of national politics into this year's meeting of the federation came through a resolution presented by J. M. O'Hanlon, a delegate who is representing the New York State Federation of Labor. The political communication also is endorsed by the international union of pavers and masons.

Al's Fitness as Legislator.

In presenting the Smith for president resolution its sponsors declared: "What the country needs now at the helm is a man who has been tried, who has shown his fitness as a legislator, who has shown throughout his public career a sincere interest in the people, and who advocates and upholds the principles of democracy. We urge the adoption of this resolution as that reverence for democracy can and will be maintained."

After the resolution committee had considered the request, its members, headed by Matthew Woll, international president of the Photo Engravers union, and one of the vice presidents of the A. F. of L., reported that:

"The American people are not at present engaged in a presidential campaign, and, therefore, Gov. Alfred Smith cannot be a candidate for the presidency of the United States. Instead, Gov. Smith is at present a candidate for reelection as governor of the state of New York. As such he has the support of the New York Federation of Labor and of an overwhelming number of unorganized wage earners and citizens."

Wait Until Proper Time.

"If we are to maintain strict adherence to our non-partisan political policy in the presidential as well as the public official campaigns, we must of necessity withhold the formation and expressions of judgment until the opportune and proper time presents itself, no matter how appealing or friendly the person involved may be."

"For these reasons your committee recommends the withholding of any action or expression upon the resolution insofar as it relates to any candidacy for President of the United States."

This year and at conventions of the American Federation of Labor for the last three years the delegation of garment workers has criticized military movements. The delegation's resolution condemning the training of young men at citizens' military camps was overwhelmingly defeated on the floor of the convention.

The convention reiterated its advocacy of the direct primary law.

MORE GIVE TO AID VICTIMS OF FLORIDA STORM

Contributions reaching The Tribune yesterday, for the hurricane sufferers in Florida, added \$154.00 to the fund. Donations which were made payable to The Tribune were:

\$25.00—Frederick T. Hoyt.
\$12.00—Nashua concave 2, Tree Knives of Illinois.
\$10.00—Mrs. S. Wiener.
\$5.00—Sunday school class of Mrs. Bate of the Humboldt Park German Baptist church.

Total—\$11.00.
Previously acknowledged—\$5,347.00.
Grand total—\$5,358.00.
Those made payable to the Chicago

4 GROUPS PUSH \$3,000,000 BRIDGE FOR WABASH AV.

A proposed campaign to shape public opinion in favor of a \$3,000,000 bond issue for the Wabash avenue bridge was outlined yesterday at a meeting in the Palmer house of four civic groups which are promoting the project. They are the Wacker-Drive Property Owners' association, the Wabash Avenue Bridge association, the Wabash Avenue Business Men's association and the North Central association.

The organizations hope to put the bond issue question on the ballot in February.

chapter of the Red Cross were a check for \$100 from J. L. C. and one for \$5.00 from "A Friend," which added to previously acknowledged gifts totaled \$5,373.00, made the grand total of that fund \$5,378.00.

To date The Tribune has acknowledged \$5,373.12, exclusive of several hundred dollars contributed through W-G-N, the radio broadcasting station.

Simmons Island Drive in Lincoln Park Nearly Done

The outer drive over Simmons island, across the Diversey parkway bridge and the golf course, to connect with the outer drive at Belmont avenue, will be completed on Nov. 15.

Emil A. W. Johnson, superintendent of Lincoln park, announced yesterday.

Sportif
the correct under-style for winter sports

To enjoy the exhilaration of strenuous winter sports, you need the Sportif suit that keeps you just warm enough, gives freely with every movement, absorbs perspiration and dries evenly. Sportif is the ideal undergarment for outdoor winter sports. It is a one-piece suit, knee length—Dutch neck, elbow sleeves, or French band top. It can be had in wool and cotton or silk and wool mixture. Richelieu Sportif Bloomers of knitted mercerized cotton afford extra protection and are advisable to wear with Sportif in extremely cold weather. They can be had in rose, sand, henna, peacock, black and grey.

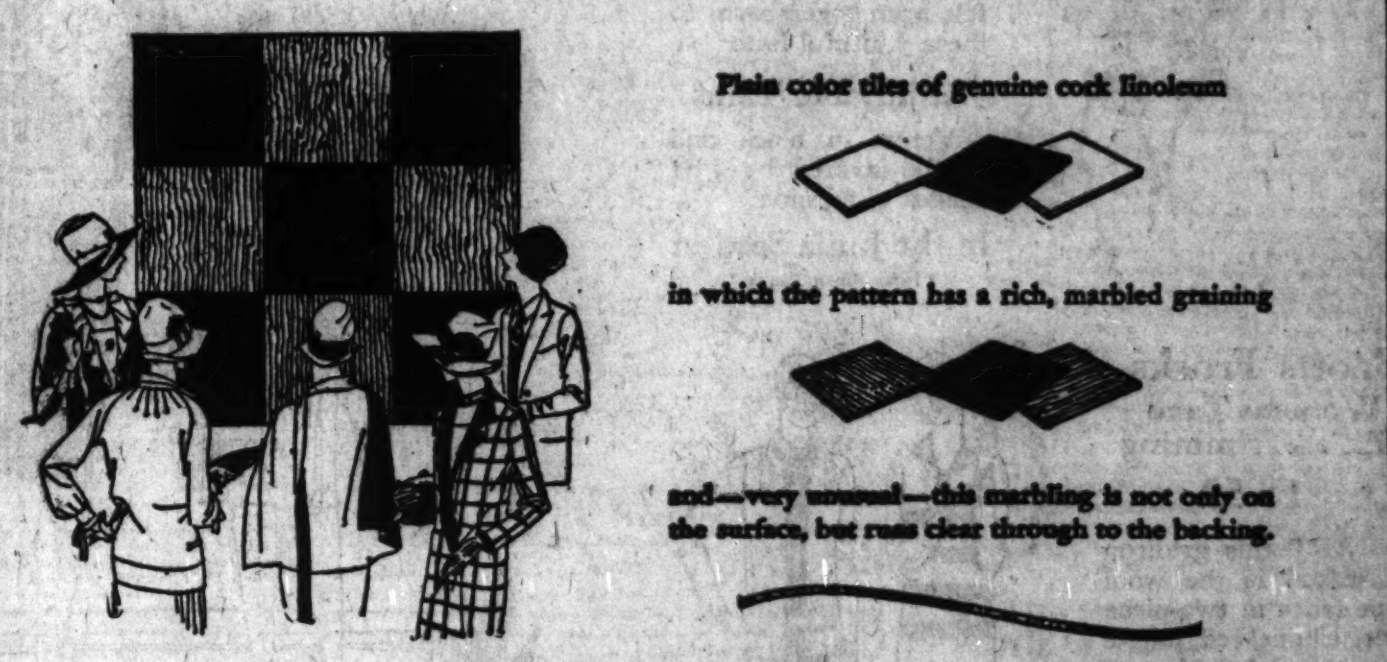

The four under-styles in the Richelieu Winter Wardrobe are being shown at prominent stores in Chicago and other Mid-West Cities, this week. Select correct under-styles for yourself and your family. Models for women, men, boys and girls.

WOMEN are enthusiastic over this New floor idea

Marbleized linoleum tiles that enhance floor beauty and hide footprints

So modern and colorful it has captured the interest of decorators, so pretty and yet so intensely practical women are quite enthusiastic over it, Armstrong now offers another new floor idea—Marbleized Inlaid Linoleum.

Plain color tiles of genuine cork linoleum in which the pattern has a rich, marbled graining and—very unusual—this marbling is not only on the surface, but runs clear through to the backing.

You can see these new patterns at local stores in different color combinations and designs. Black squares set off by alternate squares of two-toned gray; mottled browns with dark interliners and contrasting blocks of light cream; blended blues framed in white—clean looking colors, and colors that are easily kept clean.

All the practical virtues of Armstrong's Linoleum are part of these marbleized designs. They can be cemented in place over deadening felt to lie smooth, firm; they can be waxed to a high luster; cleaned with a simple dust-mopping.

See them at local stores. Examine the price-tags. They're marked most temptingly low.

What I Did with
Tribune Want Ads!

John S. came to the city from a small western town, studied at a trade school whose Want Ad in The Tribune attracted him. Then he placed a Situation Wanted Ad in The Tribune describing his training and secured a position. Three years later in the "Help Wanted" columns of The Tribune there was an ad for some one of John's experience. Today John is an executive in the organization. He married, and now they are planning to buy a little home which a well known realtor described in the "Real Estate" columns of The Chicago Tribune Want Ad Section.

Found a Watchman
"We recently advertised in The Tribune Want Ad Section for a night inspector, and received 23 replies. We employed a very capable young man who is attending a university."—C. G. Baker, of the Williamson Candy Co., 4701 Armitage Ave.

What has been your experience with Tribune Want Ads? For the best letters the following prizes are offered:

1st prize.....\$500	4 prizes of.....\$125 each
2nd prize.....\$250	10 prizes of.....\$100 each
3rd prize.....\$100	\$5 for every letter published

The conditions: Your letter should contain 500 words or less, and include your address, phone number and date on which the ad ran. Your story must be an actual experience. The Contest is open to everybody. The closing date is December 15th. Address Want Ad Contest, 1113 Tribune Tower, Chicago.

25 Good Inquiries!
"I recently ran a Want Ad in The Tribune to rent a 3 room apartment. I had, in all, about 25 good inquiries. It pays to advertise in The Tribune."—M. A. Kessel, 4312 Cottage Grove Ave.

What Other Food Can Compare with Hydrox

-in important food elements and vitamins
-in perfect digestibility
-in purity
-in economy

The pure, rich cream and fresh milk in Hydrox provides PROTEINS—builders of muscle and bone. Its pure cane sugar provides CARBOHYDRATES—producers of energy. And its pure fruits and cream supply every important vitamin.

Hydrox Ice Cream is so wholly digestible that the digestive organs of the tiniest infant or those of the weakest invalid easily digest it.

Pasteurization, Filtration, and Carbonation bring to Hydrox Ice Cream a degree of super-purity unapproached in any other food product.

A complete, well-balanced food in itself—the cost of Hydrox is so trifling that every home can easily afford to serve it at least once every day.

Hydrox
ICE CREAM
the universal food

Three Intersectional
Contests Listed.

BY WALTER ECKERSALL.

Stuffed by three important intersectional contests, Saturday's football card is studied with brilliant features. Four games are scheduled between Big Ten eleven and in the eastern headlines Dartmouth will clash with Yale and the Navy with Princeton.

It has been many years since so many important games have been listed for the same day. Most of the contestants have been pointed out for these battles, and the opening days of practice for some advanced football should be seen.

Three middle west eleven will attempt to upbraid the author of football found in the section against teams of the east. The results will be watched with interest. In no case can the winner be forecast with any degree of certainty although Pennsylvania is favored to beat Chicago, while the tilt between Penn State and Notre Dame at South Bend and Columbia and Ohio State at New York City should be only contested.

Penn Veteran Team.

Although Chicago has shown more of a tendency to lean toward the open pass than any Maroon eleven of recent years, it will meet a veteran aggregation in the Quakers, who won a hard fought game from the local team last year. Stagg's only chance of winning over his eastern opponent is to outmaneuver the Quakers at all corners of the field as the straight attack cannot be expected to gain enough ground to result in scores. This is one game on the Penn schedule which the Quakers must win to win and Chicago must play better football than it did against either Florida or Maryland to escape defeat.

Notre Dame, which played aggressive football against Minnesota last year, is expected to be in superb condition for Penn State, coached by Coach Baskak, one of the greatest coaching backs in Maroon football history. The two eleven battled to a narrow tie last year, and each is determined to win this year's struggle. A crowd which will tax the capacity of the field will watch the battle.

Ohio State Formidable.

Ohio State, which must be given consideration when the conference championship is mentioned, will go into the tilt to meet Columbia on the Polo field in New York City. While Ohio State's eleven has been one of the best this year by commanding scores, the team is even stronger than last year's.

The meeting of Dartmouth, one of the strongest eleven in the country last year, and Yale and Princeton, the two greatest football teams in the Atlantic seaboard.

The Navy-Princeton battle on the last gridiron will be followed with a keen interest. Neither eleven has a record in another season of great interest. Both will be compelled to show a bit of offensive power if they are to be able to stand among the really strong teams in the section.

Aside from the intersectional struggle between Notre Dame and Penn State at South Bend, other games of importance will be played in the middle west as to the game to be played Saturday night at least four eleven will have forfeited claims to the 1926 title championship.

Iowa at Illinois.

Illinois and Iowa will meet at Champaign in the homecoming struggle. Neither appears to have a great advantage. It is the first conference game for both teams.

Michigan, last year's Big Ten champion, will meet Minnesota at Ann Arbor in another struggle of great importance. While the Gophers lost to Notre Dame last Saturday, they will be greatly improved team when they meet the Wolverines.

The Green Bay Packers, represented by the promising squad in years, will meet Indiana at Evanston. While the Packers have not shown a great deal of promise in their practice games, they will come to Evanston prepared to battle the Purple every minute of the game.

Unlike former seasons, Notre Dame is not handicapped by injuries and should enter the struggle with full strength.

In the other conference clash of importance, Wisconsin will meet Purdue at Lafayette. The Cardinal has a better outlook which its supporters will not be dimmed by defeat. Purdue, although defeated by the Navy last year, is stronger than the average eleven developed at Lafayette and must be considered a worthy opponent for Wisconsin.

Judge Sorry He Must Fine Violators of Blue Laws.

St. Louis, Mo., Oct. 11.—(AP)—Judge J. J. Sweney imposed a fine today on two football players and a spectator for violating a blue law here Sunday.

He told them he was sorry the law made him do it.

40,000 ROAR WELCOME TO CARDINALS

TEAM HONORED AT CELEBRATION IN BALL PARK

Hornsby Leaves for Mother's Funeral.

(Picture on back page.)

St. Louis, Mo., Oct. 11.—(AP)—Travel worn but triumphant, Manager Rogers Hornsby led 16 members of his world champion Cardinal baseball club back to home grounds late today to a welcoming crowd of about a thousand boisterous fans.

Most of the players, however, managed to slip away from the admiring welcomers and were escorted to their homes or hotels by motorcycle police men, where they hoped to get a little rest before a formal celebration staged tonight at Sportsman's park in their honor.

Alexander the Great and Bottomley were about the only members of the club that were recognized as they were smuggled out of the Union station to waiting automobiles by members of the reception committee. "Silent" Tommy Thoenen managed to elude his admirers altogether.

Hornsby Leaves for Texas.

Hornsby, however, did not fare so well. Remaining on the train until he thought most of the crowd had gone, he ventured into the train shed, escorted by two policemen and a few friends.

As the party moved toward the tracks in the rear of the station the crowd increased, until Hornsby, visibly irritated and nervous, went back to the waiting train which will take him to Austin, Tex., for the funeral of his mother. There he was joined by Mrs. Hornsby and their son, Billy. After half an hour the party went to a restaurant in the waiting room, later returning to the Frisco "Texas Special," which left the station at 4:50.

Only eight of the players appeared at Sportsman's park for the homecoming party, however, the remainder of the crew evidently believing that enough was enough. These were Alexander, Thoenen, O'Rourke, Blades, Douthett, Southworth, Keen, and Bottomley, with Coach Williams representing the board of directors.

A capacity crowd of nearly forty thousand, rivaling the attendance of last week's series games, was jammed into the park before the opening of the program and outpointed in noisemaking power any similar gathering during the days of the title fight.

Reaching the stand, the men were introduced one by one, with "Old Pete" Alexander receiving first honors. He was greeted with a thundering roar of approval and returned the favor by stooping over and kissing two girls standing near the stand. The second roar exceeded the first.

HOME TOWN AWAITS ALEX

St. Paul, Neb., Oct. 11.—(AP)—This town of 2,600 persons is preparing for a home town invasion, not by "Alexander the Great," but by "Alexander the Greater," who yesterday stepped from the St. Louis pitchers' bench to uncover his empty right arm and pitched the St. Louis Cardinals to the world's baseball championship.

Today the name of Grover Cleveland Alexander was all that was necessary to start conversation, whether it be in the depot, lunchrooms, barber shops, or in county court. The town was decorated and homes with bunting. The favorite dish of Alexander was a "wheel of a banquet." He is expected home Monday.

INVITED TO GALESBURG

Galesburg, Ill., Oct. 11.—(Special.)—Friends of Grover Cleveland Alexander, who started his baseball career with the Galesburg team in the old Illinois and Missouri leagues in 1909, today wired the Cardinals' pitching hero an invitation to return to this city to be the guest at a mammoth celebration in his honor. Alex was asked to set the time he could come for the celebration.

Alex was a mere youth when he came from St. Paul, Neb., to seek a pitching job on the Galesburg team. He had worked less than a season when he was struck on the head by a ball and sent to the hospital with an injury that physicians said would keep him off the diamond permanently. An Indianapolis scout, who had seen him work during the season, bought him for \$750.

\$25,000,000 WAGERED

New York, Oct. 11.—(AP)—Money changed hands on the 1926 world's series in no other sport in the history of sport, according to reports of betting centers scattered along Broadway and in Wall street today. Estimates of the commissions placed the total of wagers at \$25,000,000, of which \$2,000,000 was bet between the outcome of yesterday's game.

Fight Cardinals

At Philadelphia—Tom Hornsby lost his title (10). George Lusk lost his title (10). At St. Louis—Tom Hornsby lost his title (10). George Lusk lost his title (10). At St. Louis—Tom Hornsby lost his title (10). George Lusk lost his title (10).

THE GUMPS—SAY IT WITH SIGNS

I'll put up signs that will draw like a mustard plaster—don't need any sign painter. When I was in school I became well acquainted with the alphabet—I know the difference between red and black paint—to some people sign painting is a trade to make a cinch.

I'll have a different sign on every lot—that little personal touch always appeals to discriminating buyers—a lot of people don't believe a horseshoe is lucky or a black cat is unlucky—but in the advertising age everybody believes in signs.

If you love her say it with bungalows in Gump's Paradise Vista.

GROW WITH THE TRIBUNE IN 1922

the great club
of Havana enthusiasts

MEN who seek the full-bodied mellowness of "old-fashioned" Havana are enthusing over the Robt Burns Perfecto Grande, the new 2 for 25 cent size. Not only because its FULL Havana filler is from the sweetest-tasting crop in years, but because the rich-looking, protective foil wrapper makes possible the enjoyment of this wonderful tobacco at the height of its natural goodness.

GRAIN MARKETS ARE FIRMER AS COTTON RALLIES

BY CHARLES MICHAELS.

Grain markets showed a much firmer undertone. The strong rally in cotton which advanced prices around the level they were before the recent government report was issued, combined with persistent buying of wheat futures by houses with eastern connections advanced prices 1/4¢ to 1/2¢ from the early low with the finish at the top with net gains of 1/16¢ to 1/8¢ with December, 1/16¢ to 1/8¢, and May, 1/16¢ to 1/8¢.

Fears that the government report on corn would be bullish, with a summary by B. W. Snow covering a 400 mile auto trip through parts of northern and central Illinois, in which he expressed the belief that final returns would show a smaller yield than either the government or private figures, led to a rally in corn. The rally was confined to the low point with the close at the top at net gains of 1/16¢. December finished at 75¢ 1/2, and May at 86¢ 1/2. Oats were 1/16¢ higher on more general buying, and an uptick of 1/16¢ for the day. However, the dominating influence in the market at present is economic conditions rather than the size of the crops both in this country and the world. Private cables told of excellent conditions in the southern hemisphere. Liverpool closed 1/4¢ higher.

Seedling of winter wheat has been delayed in many sections by the persistent wet weather and snow, after a trip through parts of Illinois, predicts that the area needed in the sections visited will be smaller than expected. There was some evening up for the American and Canadian government reports due after the close. The trade was somewhat surprised at the decrease of 3,000 bu in the domestic visible supply, making the total 74,340,000 bu, against 49,875,000 bu last year.

Talk smaller corn crop. Short covering was on in corn, due to prospects that there would have to be a lowering in the estimates on the Illinois crop, as suggested by B. W. Snow after a 400 mile trip over part of that state. There was relatively little pressure and the undertone was firm throughout the day, with many operators looking for a bullish government report after the close and they were not disappointed, the figures being 22,000,000 bu less than the average of the recent private estimates. Country offerings to arrive were smaller. Visible supply decreased 207,000 bu for the week and is 17,074,000 bu, against 1,837,000 bu last year.

Oats showed more activity with commission houses on the buying side. Snow's estimate that 35 per cent of the Illinois crop is in the state is unsharply having considerable influence. Rye advanced in sympathy with wheat. Polish crop this year is estimated at 197,000,000 bu, against 248,000,000 bu in 1925, and it is said there will be nothing for export.

BIDS AND OFFERS

CASH GRAIN NEWS

Report sales of wheat in all positions were estimated at 500,000 bu. Demand for either grain was slow. Late messages from New York reported an active freight market.

Chicago handlers sold 10,000 bu wheat, 60,000 bu corn, 71,000 bu oats and 2,000 bu barley to the domestic trade with 60,000 bu corn booked to arrive.

No change was shown in the basis on red or white wheat here, while on hard winter premiums were 1/2¢ higher to 3/4¢ lower, the latter on old grain. No. 2 red brought 1 1/4¢ under and No. 1 red, 5/8¢ under December. No. 2 hard sold over and No. 3 hard 5/8¢ under the future. Basis in the southwest and at Minneapolis was unchanged.

Cash corn was in fair demand with the spot basis 1/2¢ higher to 1¢ lower. No. 2 graded sold at 10¢ over to 1¢ under December. No. 4 graded 1 1/4¢ under the future. Outside markets were 1/4¢ to 1/2¢ higher.

Offerings of cash oats, small and the basis steady to 1/2¢ higher. No. 2 white brought 3/4¢ over and No. 3 white 1/2¢ over to 1/4¢ under December. No. 4 white 1/4¢ under the future. Outside markets were 1/4¢ to 1/2¢ higher.

Official receipts of grain at Chicago Monday: Wheat, 45 cars; corn, 440 cars; oats, 60 cars; rye, 7 cars; barley, 50 cars.

CHICAGO DAILY TRIBUNE: TUESDAY, OCTOBER 12, 1920.

FLAX-LI-NUM CAN SAFELY BE GUARANTEED FOR THE LIFE OF THE BUILDING

ANY GOOD BUILDER *or* ARCHITECT WILL TELL YOU

10 sound reasons

WHY YOU SAVE WHEN YOU USE

Flax-li-num

1 Fuel Economy! Your heating cost will be reduced a full third when *Flax-it-um* is built into your side walls and roof. A comfortable even temperature is more easily maintained and good health is encouraged.

2 **Smaller Heating Plant!** Smaller furnaces and less radiating surfaces can safely be specified in *Flax-linum* insulated homes. Thus you reduce your investment in heating equipment with every assurance of satisfactory results.

3 *No Floor Draughts! In Flax-linum insulated homes there are no floor draughts — no cold floors. Children will play on the floors. When you insulate with Flax-linum they are safe from colds and other sickness caused by air currents over the floor.*

4 *Comfort in Summer!* All during the blazing hot days of summer, when even at night the second floors of ordinary homes are like ovens, your *Flax-ll-num* insulated home will be comfortable. What a blessing for the whole family.

5 Efficiency! By official tests **Flamli-num** has proved itself the efficient insulation against passage of heat and sound. Being installed between the studs, the **Flamli-num** method gives maximum surface resistance to the passage of heat.

6 *Choice of Railroads!* In refrigerator cars, where constant temperatures must be maintained inside, even though outside temperatures vary as much as 100 degrees, *Flaxli-nium* has met all requirements—substantially proving its superiority.

7 *Stays in Place! Flex-It-mum will stay in place, in perfect condition, during the life of the structure in which it is installed. Its efficiency remains undiminished even after 15 or more years of service. It never warps, buckles, tears or falls.*

8 Permanent! Being made solely of purified flax fibre, *Flax-linum* cannot rot nor disintegrate. Vermin avoid it — as it is treated to be permanently proof against their attacks. *Flax-linum* can safely be guaranteed for the life of the building.

9 Proved Since 1906! Flax-It-num has an incomparable record of long successful service. For over 16 years it has proved satisfactory in all kinds of service and climate. You run no risk of faulty insulation when Flax-It-num is correctly installed.

10 Better than Bonds! Flex-l-nam pays 25 to 30% dividends. In only a few years your investment in this superb insulation is returned to you through reduced heating cost. Its cost for the average home is no more than for a good piece of furniture.

Everywhere It Is Preferred By Those Who Know

BY test and by choice, FLAX-LI-NUM is the preferred insulating material. More than 15 years ago railroad experts put FLAX-LI-NUM to the most exacting tests for refrigerator car insulation.

They proved its superiority as a material to prevent the passage of heat and cold. They subjected it to the most severe service conditions to find out how long it would last—to find out if it would stay in place. Through every one of these gruelling experiences FLAX-LI-NUM established its superiority beyond question.

Today it is used in most of the refrigerator cars being built.

Architects and builders, learning of the railroads' success with FLAX-LI-NUM, were quick to see its advantages as an insulation for buildings.

Its fame spread everywhere. Today it is the recognized standard of comparison.

In small homes FLAX-LI-NUM encourages economy and makes possible permanent comfort at low cost.

In fine residences FLAX-LI-NUM gives every

assurance that costly replacement will never be needed—that first cost will be the last.

In apartments and hotels FLAX-LI-NUM prevents noises from one suite disturbing guests in those above, below and on either side. Built into the roof, FLAX-LI-NUM so effectively shuts out the heat of the sun that the top floor is amazingly cool.

Used over boiler rooms, it prevents excessive heat from annoying those on first floor.

In theatres and broadcasting stations FLAX-LI-NUM is without equal to correct acoustics.

When your builder or architect recommends FLAX-LI-NUM, remember that he is suggesting the most effective and permanent insulation.

Everywhere those who have studied the principles of insulation show their preference for FLAX-LI-NUM.

Everywhere, in all kinds of buildings, you will find it giving satisfactory service as a heat stop and sound control material.

FLAX-LI-NUM never rots, warps nor tears. It can safely be guaranteed for the life of the building without repair or replacement.

THE CORRECT BUILDING INSULATION AND SOUND CONTROL MATERIAL

**When Builders Build for
Themselves They Use
FLAX-LINUM**

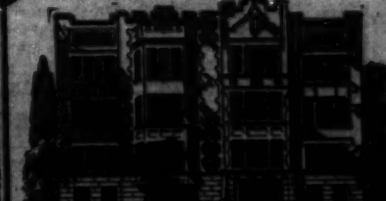

This beautiful home at 2556 Farwell Avenue, is owned and was built by Mr. Gus Seegren. Knowing the superiority of Flax-linum, Mr. Seegren used this flax fibre insulation when he built for himself. In side walls and roof, Flax-linum assures comfort in summer and lower heating costs every winter.

Our Service Men Will Help You

Write or phone for a FLAX-LINUM service man to tell you all about the economy and comfort of this flax fibre insulation. He will be glad to explain—and help you.

In Old As Well
As In New Homes

As In New Homes
If your present home is not insulated let our service man show you how **FLAXLINUM** can be installed in your attic and point out to you the lasting benefits of such protection.

FLAX-LINUM in Apartments to Stop Heat and Sound

In the Cooperative Apartments at 579 Kenwood Avenue, *Flan-H-u-mu* is used in the ceiling of the third floor to keep out heat from the sun. In the second and third floor, it is used to prevent the transmission of sound. Thomas Bishop, Architect; Harry Zisook, Contractor.

To Be Able to Step Aside Gracefully Is an Art, Sometimes

BY DORIS BLAKE.

"I have been deeply in love with a young man a few years my senior, and he seemed in love with me. But a few nights ago he, a boy friend of his, and a girl friend of mine went out together and the one I love paid attention to my girl friend the whole evening. They have known each other a long time, but never thought much of each other. I adore that boy, and I couldn't live if I lost him to my friend. What shall I do? I refuse to chase after him, but I want to win him—Angels!"

Who was the wisecrack that said you never know what trouble is until you fall in love? It isn't that love is such a trouble maker, but those in it go to the most diabolical lengths to make themselves unhappy because of it.

Take you, for example, Anguish. You are ready to make your life one prolonged agony because your friend was nice to another girl on a four-tentative to an old friend?

With some girls it is the proprietary attitude coming with the pangs of love that make the picture. Carried to an extreme, this attitude will remove the beloved from the picture entirely. Of that you must beware. The best loved women in the world are not those who want to hog the limelight every minute. That is a fact you girls might write and rewrite in your copy books a few times a day.

Another thing: men in love can go about their business of being interested in other things and persons. Women like to concentrate all on their beloved. And foolishly believe the return should be in a similar coin. It is a difference in the sexes, that's all, which you might as well learn while you are young.

You young women could save yourselves a tremendous amount of unhappiness if you would only learn not to expect to be the sole person present in a gathering, so far as the one you love is concerned. It is infinitely more clever, more intriguing to that one male, in the long run, if you put yourself out to be friendly to others than to be to one of his sex, even if one of yours appears to be envying him unduly. It may require some playing-acting at times, but then life calls for a deal of that.

DORIS BLAKE ANSWERS

Don't Be Influenced.
"Dear Miss Blake: I have been going

HAROLD TEEN—AND A GOOD TIME WAS HAD BY ALL

with a girl for the last year and about three weeks ago I overheard a conversation between two people we both know. They were speaking about her and were saying that she was a girl who went with a fellow and got all she could and then left him flat. I love

this girl. Please advise me what to do. "DOWHEARTED." Jealousy is often the motive for such unkind remarks as you chanced to hear about the young woman. Don't be influenced by them, but judge from your association with her. It's the fair way, Downhearted.

Lecture by Halliburton.
The Geographic Society of Chicago announces its first fall meeting at Orchestra hall this evening. Richard Halliburton is to speak on "The Glorious Adventure."

Thousands are talking about it!

If you have a friend suffering with eczema or other itching, burning eruption, what greater kindness could you do him than to say: "Why don't you try Resinol? I know you have experimented with a dozen treatments, but Resinol is different. It is simply a soothing, healing ointment, free from all harsh drugs, and physicians prescribe it widely in just such cases as yours. Do get a jar from your druggist today! You will be astonished to see how quickly the itching and soreness is relieved and the healing begins. Free—For trial of Resinol Soap and Ointment free, write Dept. 56, Resinol, Baltimore, Md."

OF COURSE, you are abundantly precise and particular about soap and water, towel and toothbrush. But do you always remember the deeper cleanliness? Regular ridance of the wastes of digestion is a cardinal point of prudence and hygiene. That is why ENO'S Effervescent Salt should always be present—always—ready at hand, in every household of culture and character. Mild and gentle, pure beyond reproach, and effectual beyond question.

From all druggists at \$1.25 and 75c

Queen of Rome Expected in
at End of November
BY NANCY
November is going to be a busy month for the Queen of Rome, as she is expected to arrive in Chicago at the end of the month. She will be accompanied by her husband, King of Rome, and their children. The Queen is a member of the University of Rome and is a member of the Italian Red Cross. She will be staying at the Hotel Waldorf-Astoria in New York City.

BEST BALANCED CEREAL

New food unsurpassed for flavor and healthfulness

Every mother knows the importance of serving a well-balanced breakfast to her children. Kellogg's Cereal is the best balanced cereal food—the first real improvement in cereal in fifty years. It is a new cereal, a new blend of whole wheat, including the bran, and whole wheat, including the bran, and whole wheat, including the bran. It is a new cereal, a new blend of whole wheat, including the bran, and whole wheat, including the bran. It is a new cereal, a new blend of whole wheat, including the bran, and whole wheat, including the bran.

They've performed many wonders in the famous Kellogg kitchen. Battle Creek, Mich. This new cereal is made fair to be one of the best. I think—a new flavor—a better balanced, more nourishing food. Children as well as grown-ups thrive on it. You can get New Oats at your grocer's. It comes to you pre-cooked. Just boil it three minutes before eating. New Oats is always light, always delicious. Try it today.

This Recipe Calls for an Eggplant Veil

5236 ONE SIZE
SUITABLE 34-40

by Corinne Lowe

NEW YORK.—[Special Correspondence.]—Shirred eggplant veil! Now, really, ought not these fashion menus to be written by a chef? No, there is no frivolity in my mood. I am deeply impressed by the number of colors and terms which seem to have been borrowed from the culinary department and from the butler's pantry.

This eggplant color that the French have wished upon us is being served in all sorts of recipes, both for luncheon and dinner wear. We find its dark purplish red in frocks for the street and in wraps for the theater box. It is undoubtedly one of the most popular tones of the year and if one could only call it asparagus, as do the French, I should have no quarrel with it.

Well, all this is a prelude to the fact that here is a brand new evening wrap of eggplant velvet with numerous rows of shirring to fit its cape snugly about the shoulders and with its lower section composed of one deep flounce followed by numerous deep flounces. These latter, too, are shirred. The note of contrast is supplied by collar and cuffs of gray fox echoed by the lining of silver metal cloth.

And, of course, the veil doesn't need to occur in eggplant. It may be in any color that you see fit—notably one of the blues or vivid reds of the season.

SPECIAL PATTERNS

Order Corinne Lowe Design by marking a circle, on picture, around the number, and another circle around the size, of each pattern wanted.

Tear out and inclose entire picture with 25 cents for each number. Send (with your full address) to: THE TRIBUNE MAY MANTON FASHION BUREAU, BOX 416, GRAND CENTRAL STATION, NEW YORK CITY.

Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unsalable contributions. Write on one side of the paper. Address bright sayings to Amy Lee, The Tribune, Chicago.

Then she looked over toward her grandmother, and, with a beaming smile, she added, "capt gram'ma, and I brought her to you." C. N. M.

Ann went to visit her grandmother this summer. When she came home grandmother came with her. As we were unpacking her things I said to her, "Why didn't you bring some little gift to your friend Elizabeth? You know she always remembers you when she goes away."

"Well, mother, you know I didn't see a single thing any one would want."

Billy and Janet were brother and sister, 6 and 3. When Janet refused to climb out of his cousin's wagon Billy turned on her in a rage, saying, "Crawl out of my cousin, you bad, nasty, stubborn," at which moment their mother appeared on the scene, smilingly finished his attack by adding, "Little sweetheart, you!" H. R. R.

Cuticura OINTMENT

The Family Friend

Nothing cures so many cases of eczema, itching, and irritation. Rubs with Cuticura Soap and hot water to free the pores of impurities and follow with a gentle application of Cuticura Ointment to soothe and heal.

For a full description of the disease, see the booklet "Cuticura Ointment" sent free on request.

PATTERNS BY CLOTILDE

(Registered U. S. Patent Office.)

WOMAN'S OR MISS' DRESS.

The bloused althousette, the scarf collar and tie, the plait either side of the front panel, the long tight sleeves with flared cuffs and the large bow in the front at the waistline, combine to make this design one of the newest and prettiest.

The pattern, 2,540, comes in sizes 16 and 18 years and 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, and 44 inches bust measure. Size 36 requires 3 1/2 yards of 40 inch material.

TRIBUNE COOK BOOK

BY JANE EDDINGTON.

Distributing the Day's Ration.

My latest correspondent on the subject of breakfasts asked several questions about my opinions with a final remark as follows: "If people only knew how little actual time and effort it takes more of them would be likely to eat a better breakfast." When one is out of bed and has performed his or her ablutions it certainly takes less than five minutes to put a cereal to cook for from one to four people, and that cereal does not even have to be stirred. The only thing that is necessary is to turn down the fire, after the water in the double boiler comes to a boil. It will cook the cereal for an hour almost without loss. Half a cup of oatmeal, one cup of water, and a little salt in the top part of the oatmeal, cooked for an hour gives a cereal comfortably hot. Or one part white corn meal to four parts of water and salt gives that sort, etc.

For over ten years my breakfast has been taken with as definite a plan as to how it will serve me when I am morning fresh for work as is my plan for the work itself. It might be called a pure fuel breakfast, but good digestion of the breakfast is provided for by my using with the fuel some favoring items or some, those, protective foods which insure health year in and year out—the fruits. The breakfast is mainly, or all, hot because thus my digestive powers are saved work.

According to the best authorities on the subject a person like myself should obtain in a day's diet about 2,600 calories of food. It is my theory that it is best for me to get more calories by far at breakfast time than at any other meal. I take about a cup of cream, part of it flavored with drip coffee and well sweetened. That amount of cream gives me about 455 calories. The sugar I use, altogether, yields 100 at least. Two slices of bread as toast, probably yield 200 calories, and the butter for them 200. I use half of the cream for cereal or fruit, and in winter always have a cereal, but not in summer. A half cup of rolled oats will yield about 200 calories. It would so be easy for me to get half the calories needed for a whole day at breakfast. Bulk and mass are mainly be procured at other meals.

A FRIEND IN NEED

IS YOUR HAIR FALLING OUT OR GETTING THIN?

Chronic dandruff, falling hair and itchy scalp are warning signs that baldness is on the way. Better act in time and save your hair.

Thomas' Special Formula for Falling Hair will drive away the dandruff, stop falling hair and correct conditions which promote baldness. An absolutely different tonic. Contains no alcohol to dry up the scalp and make the hair brittle. It is highly antiseptic, checking and eliminating all conditions which destroy the life and lustre of your hair. It stimulates "flying hair roots," and does more to preserve a good head of hair than any other product yet discovered.

This is the same formula used so successfully by the greatest hair and scalp specialists in the world at all the Thomas' offices in 40 cities.

THOMAS Special Formula for FALLING HAIR

Use this tonic regularly in connection with a weekly shampoo with Thomas' Special Formula Shampoo—easy to use, quickest to rinse and dry out, and the most delightful in every way.

The Thomas Products Co. 163 N. Dearborn, Chicago, Ill.

Look for it in all drug stores.

Your neighborhood drug store, all Western drug stores, Shulton's, B. & S. Drug Co., L. & L. Drug Co., and Ovi. Drug Store.

There's a French Costume for Every Type of Figure

(Chicago Tribune Press Service.)

PARIS.—[Special Correspondence.]—There was a time when queens were arbiters of fashion. In past centuries the ladies of the court would adopt a style and it was established. But, like their crowns, their word is not so imperial as it used to be.

One notices, particularly in this year's showing, that every woman who has the money to patronize the smart couturier has an idea she is a queen unto herself. And a recognition of the individual demands is seen in the different shapes and sizes of the mannequins who display the gowns.

In America our mannequins are almost standardized as to length, breadth, and thickness, with little of the latter, as you may have noted discouragingly, yourself. They're tall. They're narrow and they carry just enough weight to keep them out of a health sanitarium.

For one thing, the French figure differs from ours in more curves than one. A French girl has a bust, a waist line, and hips, and she doesn't try to make one flat wall paper mold of them. Yet, she never seems to give an impression of being plump, as I am sure an American girl would consider herself with so many curves showing.

The French mannequin is not so universally pretty as our girls who change dresses a hundred times a day for a living. Every house here, though, has one or two amazing looking girls who could make a gingham frock look like a masterpiece of the dressmaking art. They all walk with a dash that seems to set the clothes in motion, so that never for a moment do you feel you are seeing something on a dummy.

I was particularly interested in seeing what sort of coiffure they were wearing, as fashion reporting is in better hands than mine. I was told that the mannequins' coiffures have a good deal to do with setting hair styles. While every house visited had several girls with their hair in low chignons, in which instances it was drawn back skin tight from brow and behind the ears, the majority rule was for the shingle. Much as the couturiers would like to see a change in hair fashion so they could introduce a radically different note in dress style, they recognize that women's fidelity to the bob amounts to militant obstinacy.

REGISTER TODAY! LAST CHANCE! 8 A. M. TO 9 P. M.

SAVOY FRUIT SALAD MOLD.

Disolve a package of lemon gelatin in boiling water and 1 teaspoon of lemon juice. Pour into a shallow mold and let stand until nearly set. Drain a cup of Savoy Fruit Salad and distribute the fruit evenly through the gelatin. When firm, cut in squares and serve on lettuce leaves with mayonnaise which has been thinned with the fruit juice.

GOLD MAID HOSIERY

"Silk Stockings that Please"

Romance

"A Darling New Shade in Hosiery!"

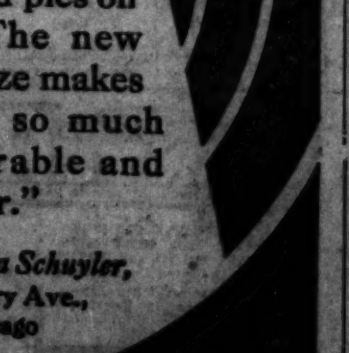

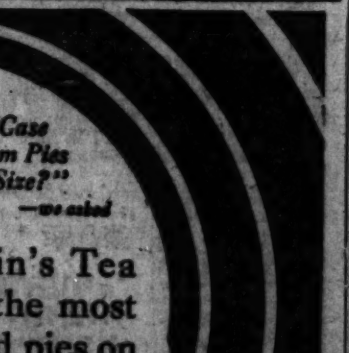

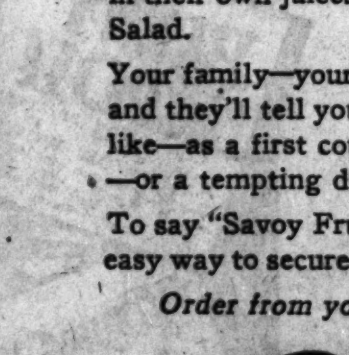

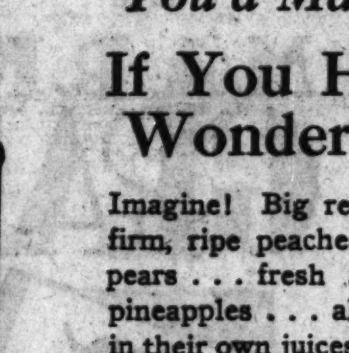

Gold Maid offers particular women a long-wanted opportunity to be first with the newest in hosiery not only from season to season, but now from month to month!

And now, for October, we announce... ROMANCE... a color certain to be as popular in shade as Gold Maid is in quality.

Gold Maid is sold by the principal stores in Chicago.

GOLD MAID HOSIERY
Sole Distributors, Chicago

JINGLET'S

BEAUTY ANSWERS

T. S.: AFTER WASHING THE hands, press the cuticle at the base of the nail backward around the edges in a half moon shape. It is better not to cut the cuticle, but if you do, rub a little cold cream around the edges at night for a while, and keep pushing the cuticle back. Manicuring instructions may be had for a stamped, addressed envelope. You had better send for them.

WORRIED: HAVE YOUR OWN hair brush and comb. Do not use one that is used by others, as dandruff and other diseases of the scalp are conveyed from one person to another in this way. Keep your own brush extremely clean.

Women's Danger

Of offending under the oldest hygienic handicap now ended. New way provides true protection—discards like tissue.

WITH the old-time "sanitary pad" women realize their constant danger of offense, plus the embarrassment of disposal. And thus spend money in vain.

"KOTEX," a new and remarkable way, is now used by 8 in 10 better class women.

It's five times as absorbent as ordinary cotton pads.

You dine, dance, motor for hours in sheerest frocks without a second's doubt or fear.

It deodorizes, too. And thus stops ALL danger of offending.

Discards as easily as a piece of tissue. No laundry. No embarrassment.

You ask for it at any drug or department store, without hesitation, simply by saying "KOTEX."

Do as millions are doing. End old, insecure ways. Enjoy life every day. Packages of twelve costs only a few cents.

KOTEX

No laundry—discards like tissue

BULLETIN

Michigan City, Ind. (Special.)—D. C. Stephens, taken from the Indianapolis at 2:58 o'clock and started on his way to Indianapolis to the grand jury there, rode in one car with while following him in car loaded with officers.

BY ORVILLE

Indianapolis, Ind. (Special.)—Thomas H. Adams, publisher, today presented a super-government in Indiana to the Marjory, which is investigation. Adams was in the more than two hours. There, of course, is taken for granted that was questioned concerning allegation based on by D. C. Stephenson, dragon and political state, now in prison.

Quit Stephenson Court Asher and Earl O'Banion's former lieutenant to go before the Thursday the was brought from the interrogated concerning of graft.

For that Stephenson was murdered in the investigation. Much mystery in the situation a suggestion that the dragon was at least been high up in public threatened to expose.

The event that intervened most was the case on behalf of John H. Kiplinger, Louisville, Ind., the son of James E. Watson, was in Stephenson's of lawyers, the ones because they had done perfecting an appeal. known as a Republican.

Telegram from the presence of the in the case because when Thomas V. Miller had been designated leader to act for his cryptic telegram: "For Kiplinger back stop all publicity."

This telegram was sent "Adams," and was sent City. Miller received it. Both he and Adams the probe committee. Republican Editorial and concerned. "This is a mystery to me."

Adams shook his head. "I am trying," he said, "to get what it means." Up until now Stephens all his lieutenants to stop publicity for his pointed out that it is then he has accused would expose by Adams, the contents of "black box" of proof given out. It is known the committee that "black box" so carefully by Stephenson, and it had it in view to include of that box.

Fate All in Kiplinger While Adams, Attorney there came a second to me. This was even in a mind.

"This no paper of which first committee changed throughout he is therefore chief counsel him at once a their misunderstanding. All all the publication civil matter, Kiplinger suddenly."

"Mystery, mystery, mystery. There seem to be that I don't know. This new case out that is in it. I think I'll stop. I'll stop. Attorney Miller in Michigan City to from Stephenson himself. The of the author's statement because the Miller said. continued on page 28."
